RECEIPT OF A "NOTICE OF PROPOSED USE  
OF STATE LANDS" PROVIDED FOR BY  
MEMORANDUM OF UNDERSTANDING BETWEEN  
THE DEPARTMENT OF WATER RESOURCES  
AND THE STATE LANDS COMMISSION.

BACKGROUND:

On September 26, 1979, the State Lands Commission approved a Memorandum of Understanding, effective October 19, 1979, between the Department of Water Resources and the State Lands Commission. It provides for use of State lands for either the Central Valley Project or the State Water Resources Development System. Under the Memorandum of Understanding, the Department of Water Resources provides State Lands Commission with a "Notice of Proposed Use of State Lands".

The Department of Water Resources has recently submitted the prescribed Notice for proposed construction of water diversion facilities and channel dredging in Barker Slough as part of the North Bay aqueduct which will supply water to municipal and industrial users in Napa and Solano Counties. Staff has reviewed the project plan and has determined that no restrictions or limitations are needed from the State Lands Commission for the occupation and use of the lands. Determination of the disposition of the dredged spoils has not been finally determined.

In accordance with the Memorandum of Understanding, staff will execute the "Notice of Proposed Use of State Lands".
