AUTHORIZATION FOR PROPOSED SALE OF ROYALTY CRUDE OIL,  
STATE OIL AND GAS LEASE PRC 186  
BELMONT OFFSHORE FIELD, ORANGE COUNTY

Section 2 of State Oil and Gas Lease PRC 186 dated September 24, 1945 reserves to the State the right to take royalty oil in kind on demand. Royalty oil production from this lease is approximately 300 barrels per day of 19.0° API gravity crude oil. This crude oil is now being sold under a contract which will expire on November 1, 1985. Edgington Oil Company is currently purchasing this royalty crude oil for a bonus of \$1.861 per barrel above the posted price. The staff recommends that the Commission re-offer for competitive bidding the royalty crude oil produced from this lease which is presently being purchased.

Section 6815.1 of the P.R.C. governs the sell-off of this oil and provides, in pertinent part, that when oil is taken in kind by the Commission it shall be sold only to the highest responsible bidder upon competitive public bidding and that the bidding shall be pursuant to specifications and forms adopted by the Commission prior to publication of the notice to bidders. The staff recommends that the Commission at this time adopt the specifications for the sell-off which are listed in Exhibit "A" to this calendar item and adopt the forms prepared by staff for use in the sell-off, which are the Notice Inviting Bids, Bid Proposal, and the Crude Oil Sales Contract, copies of which are on file in the Commission's office in Long Beach. After the bids are solicited and the highest responsible bidder determined, the staff will return to the Commission with a recommendation regarding the award of the sales contract.

The oil will be delivered without any physical change in the existing oil production and transportation facilities.
