SIXTH MODIFICATION OF THE 1985-86
PLAN OF DEVELOPMENT, OPERATIONS AND BUDGET,
LONG BEACH UNIT, WILMINGTON OIL FIELD,
LOS ANGELES COUNTY

The City of Long Beach has requested approval of the Sixth Modification of the 1985-86 Plan of Development, Operations and Budget, Long Beach Unit. This modification would modify the Plan to provide for equity coring and logging of additional wells and fund the work by transfer of funds. The total adjusted budget would remain unchanged at \$229,340,000.

The current budget was augmented by \$1,135,000 through the carryover to provide for equity coring and logging of wells drilling or scheduled to be drilled late in the last budget period. An additional \$1,532,000 was provided by the Fourth Modification for three more wells through transfer of funds. The Unit Equity Committee has again asked that additional coring, logging and core and log analysis work be done this year. The estimated cost of the work now proposed for one well is \$317,000. Funds are available from within the budget as a result of surplus development drilling funds.

Upon approval, the affected budget items will be as follows:
