SECOND MODIFICATION OF THE 1986-87
PLAN OF DEVELOPMENT AND OPERATIONS AND BUDGET,
LONG BEACH UNIT, WILMINGTON OIL FIELD
LOS ANGELES COUNTY

The City of Long Beach has submitted to the Commission the Second Modification of the 1986-87 Plan of Development and Operations and Budget of the Long Beach Unit. The Second Modification reduces the Budget by an additional \$15,459,000 to \$137,000,000 and modifies the Plan, when necessary, to meet the lower expenditure rate. The most significant Plan change is the reduction of drilling activity to one active drilling rig for the balance of the year.

With the average posted price of 17° API Wilmington crude oil declining to under \$8.50 per barrel in July the need for additional cost reduction measures for the Long Beach Unit appeared crucial. It was agreed to reduce drilling activity and the Field Contractor reviewed areas where additional savings might be made or expenditures were expected to be less than budgeted. Resulting reductions approximated \$18.5 million. It was found however that the energy savings from interruptible service were less than previously estimated by \$3 million. These funds were returned to the budget with the net effect of a \$15.5 million reduction.

While crude oil prices have recently recovered somewhat the increase has not been sufficient to warrant additional drilling rig activity. Desirable new well locations were becoming a rarity before oil prices started to decline and rig activity reductions had already been planned. Cost reduction programs developed by the Unit Operator and the Field Contractor that will not effect production should be put into effect or continued under any circumstances.

(REVISED 09/23/86)

-1-

CALENDAR PAGE	147
MINUTE PAGE	2374

Details of the cost reductions and the affected Budget Items together with the new budgeted amounts are presented in the attached Field Contractors request for this Modification. Also presented in that request are revised Exhibits "C-3" and "C-4" which detail the lower anticipated levels of production and injection resulting from this modification, the current oil price, the reduced rate of expenditures, and the anticipated net income.

OTHER PERTINENT INFORMATION:

1. Pursuant to the Commission's delegation of authority and the State CEQA Guidelines (14 Cal. Adm. Code 15061), the staff has determined that this activity is exempt from the requirements of the CEQA because the activity is not a "project" as defined by CEQA and the State CEQA Guidelines.

Authority: P.R.C.: 21065 and 14 Cal. Adm. Code 15378.

EXHIBIT: A. Field Contractor's Request Letter.

IT IS RECOMMENDED THAT THE COMMISSION:

1. FIND THAT THE ACTIVITY IS EXEMPT FROM THE REQUIREMENTS OF THE CEQA PURSUANT TO 14 CAL. ADM. CODE 15061 BECAUSE THE ACTIVITY IS NOT A PROJECT AS DEFINED BY P.R.C. 21065 AND 14 CAL. ADM. CODE 15378.
2. APPROVE THE SECOND MODIFICATION OF THE PLAN OF DEVELOPMENT AND OPERATIONS AND BUDGET, LONG BEACH UNIT, JULY 1, 1986 THROUGH JUNE 20, 1987.

P.O. BOX 2800 · LONG BEACH, CALIFORNIA 90801

September 16, 1986

Mr. J. R. Hemphill, Director
Department of Oil Properties
333 West Ocean Boulevard
Long Beach, CA 90902

Dear Mr. Hemphill:

Subject: Thums Request No. 53 24
Second Modification of the Plan of
Development and Operations and Budget of
the Long Beach Unit (July 1, 1986 through
June 30, 1987)

In accordance with provisions of Part IV, Section A-1, of the 1986-1987 Plan and Budget, we are submitting for your approval the Second Modification of the Plan of Development and Budget of the Long Beach Unit covering the period July 1, 1986 through June 30, 1987.

This modification further reduces the scope of the 1986-1987 Plan and Budget because of the continued uncertainty concerning oil prices. The average unit crude oil price, after a temporary 1 month drop, is currently slightly above a \$10/barrel figure. (The First Modification of the 1986-1987 Plan was based on the assumption of a \$10/barrel oil price). Included in this second modification is a revised Part III showing the present budget resulting from the first modification and carry-ins from the 1985-1986 Plan and Budget; changes made by this modification; and the adjusted budget.

These changes result from the reduction from two to one drilling rig in August, greater than anticipated personnel reduction resulting from Thums' Early Separation Enhancement Plan, anticipated savings in the taxes and fees levied on the Long Beach Unit, adjusted energy and water supply costs, and reduction of activity in the Oil and Gas Production, and Management Programs.

Also included are revised Exhibits C-3 and C-4 which detail the lower anticipated levels of production and injection resulting from this modification, the current oil price, the reduced level of expenditures, and the anticipated net income.

(PAGES 149-149.11 ADDED 09/24/86)

CALENDAR PAGE	149
MINUTE PAGE	2376

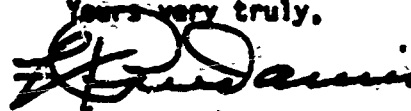

Mr. J. K. Homphill, Director
Department of 011 Properties

August 27, 1986
Page -2-

After approval, the total revised budget will be \$137,000,000. Revenues of \$237,119,000 are anticipated by this modification, resulting in a net operating profit of \$100,119,000 to the Unit.

Your approval of this Second Modification to the 1986-1987 Plan and Budget is requested at your earliest convenience.

Yours very truly,

F. X. Bendarvis
General Manager
