PROPOSED SALE OF ROYALTY
CRUDE OIL, STATE OIL AND GAS LEASES,
LOS ANGELES, ORANGE AND SANTA BARBARA COUNTIES

At the present time, the State is taking in-kind and selling the State's share of crude oil produced from ten State oil and gas leases in various fields located in Los Angeles, Orange and Santa Barbara counties. The crude oil from these ten leases are under contract to various purchasers and these contracts are scheduled to expire in late 1987 and early 1988.

Due to the long lead time, including a 180-day-notice period for State oil and gas leases PRC 3033 and PRC 3413 in Huntington Beach, action must be taken at this time to put the bidding process for these royalty crude oil sales into operation.

Section 6815 of the P.R.C. governs the sell-off of this oil and provides, in pertinent part, that when oil is taken in kind by the Commission, it shall be sold only to the highest responsible bidder upon competitive public bidding, and that the bidding shall be pursuant to specifications and forms adopted by the Commission prior to publication of the notice to bidders. The staff recommends that the Commission, at this time, authorize the sale of royalty crude oil from the leases listed on Exhibit "A" and adopt the specifications for the sell-offs which are listed on Exhibit "B" to this calendar item. Staff also recommends that the Commission adopt the forms prepared by staff for use in the sell-offs, which are the notice inviting bids, bid proposal, and the crude oil sales contracts, copies of which are on file in the Commission's office in Long Beach.
