OTHER PERTINENT INFORMATION:

1. Applicant proposes to install approximately 360 feet of rock revetment to protect 17 beachfront residences which have previously been damaged from storm waves. The placement of rock will be an addition to an existing shoreline protection device. The objective of the rock revetment is to protect the foundations of the buildings by maintaining sand underneath the concrete slab and around the foundation caissons.

2. The annual rental value of the site is estimated to be \$1,460.
3. This activity involves lands identified as possessing significant environmental values pursuant to P.R.C. 6370, et seq. Based upon the staff's consultation with the persons nominating such lands and through the CEQA review process, it is the staff's opinion that the project, as proposed, is consistent with its use classification.
4. The California Coastal Commission (CCC), a "functional equivalent agency" under Section 21080.5 of the CEQA, has:
 1. served as the Lead Agency under CEQA;
 2. considered the project described herein; and
 3. found that the project, as conditioned, will not have a significant effect on the environment.

CALENDAR ITEM NO. 26 (CONT'D)

Under Section 15252 of the CEQA Guidelines, the Commission may use the environmental analysis prepared by the CCC in its consideration of this project.

Authority: Section 21083 and 21087 of the CEQA.

APPROVALS REQUIRED:

California Coastal Commission.

EXHIBITS:

- A. Land Description.
- B. Location Map.

SUBJECT: WHALERS VILLAGE, YOUR FILE NO. W24058

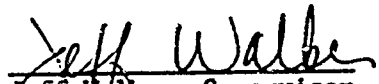

Dear Ms. Lipphardt,

The County has deferred its permitting authority on this case to the Coastal Commission. The Commission has a long history of involvement and understanding of the situation, and was willing to continue processing the permits for the rock revetment.

The County has no objections as long as all LCP requirements are met.

If you have any further questions, please call me at (805) 654-2800.

Sincerely,

Jeff Walker, Supervisor
