APPROVAL OF SPECIFICATIONS AND FORMS
FOR INVITING BIDS BY THE CITY OF LONG BEACH FOR
CRUDE OIL FROM CERTAIN TRACTS WITHIN THE FAULT BLOCK IV
UNIT AND FAULT BLOCK V RANGER ZONE UNIT, WILMINGTON OIL FIELD

The City of Long Beach has three crude oil sales contracts with three purchasers for oil allocated to the City from certain tideland tracts (listed in Exhibits "A", "B" and "C") within the Fault Block IV Unit and Fault Block V Ranger Zone Unit.

A drilling and operating contract with the Termo Company will terminate on February 8, 1989 resulting in the City becoming the 100 percent working interest owner of the tracts listed on Exhibit "A". The City's interest in these tracts is approximately 70 barrels per day of 170 API gravity crude oil. Termo was paying the City a price equivalent to Chevron USA, Inc.'s posting in the Wilmington Oil Field.

On March 1, 1989, the crude oil sales contract with Mobil Oil Corporation for the City's working interest share of oil in tracts listed on Exhibit "B" will expire. The City's interest in these tracts is approximately 45 barrels per day of 170 API gravity crude oil. Mobil was paying the City a price equivalent to the average of the prices posted by Chevron USA, Inc., Mobil Oil Corporation and Union Oil Company of California in the Wilmington Oil Field.

On May 1, 1989, the crude oil sales contract with Edgington Oil Company for the City's working interest share of oil in tracts listed on Exhibit "C" will expire. The City's interest in these tracts is approximately 165 barrels per day of 170 API gravity crude oil. Edgington is paying the City a bonus of

\$0.365 per barrel above a base price defined as the highest price posted for like crude oil on the day of delivery in the Wilmington, Long Beach (Signal Hill), Huntington Beach and Inglewood Oil Fields among the postings of Chevron USA, Inc., Mobil Oil Corporation and Union Oil Company of California.

The City proposes to sell all of the oil from the above contracts in one contract amounting to approximately 280 barrels per day of 17° API gravity crude oil for a period of one year from February 1, 1989 until February 1, 1990. Specifications for the sale are listed in Exhibit "D" to this calendar item.

Under Section 10(a) of Chapter 29, Statutes of 1956, 1st E.S., the specifications and forms for the purpose of inviting bids for the sale of Long Beach tidelands crude oil must be approved by the State Lands Commission prior to the publication of the notice to bidders. The City plans to hold a bid opening on October 26, 1988. The Commission must then approve the awarding of this contract by the City.
