OTHER PERTINENT INFORMATION:

1. Pursuant to the Commission's delegation of authority and the State CEQA Guidelines (14 Cal. Code Regs. 15025), the staff has prepared a Proposed Negative Declaration identified as EIR ND 462, State Clearinghouse No. 89030601. Such Proposed Negative Declaration was prepared and circulated for public review pursuant to the provisions of CEQA.

Based upon the Initial Study, the Proposed Negative Declaration, and the comments received in response thereto, there is no substantial evidence that the project will have a significant effect on the environment. (14 Cal. Code Regs. 15074(b))

2. This activity involves lands identified as possessing significant environmental values pursuant to P.R.C. 6370, et seq. Based upon the staff's consultation with the persons nominating such lands and through the CEQA review process, it is the staff's opinion that the project, as proposed, is consistent with its use classification.
3. The Applicant has revised the application to include only the partial reconstruction and extension of the existing pier. 4. Materials will be neither stored nor placed above the low waterline of the subject property. This procedure will prevent any disturbance to what may be considered a Tahoe Yellow Cress (Rorippa) habitat.
5. The proposed project has been reviewed under the consultation process established between the Commission and the Department of Fish and Game, pursuant to the provisions of the California Endangered Species Act (CESA), and it has been determined that the project, as described herein, poses no jeopardy to the Tahoe Yellow Cress (Rorripa) or its habitat.
6. In order to determine the other potential trust uses in the area of the proposed project, the staff contacted representatives of the following agencies: SRPA, Department of Fish and Game, County of Placer, and the Tahoe Conservancy. None of these agencies expressed a concern that the proposed project would have a significant effect on trust uses in the area. The agencies did not identify any trust needs which were not being met by existing facilities in the area. Identified trust uses in this area would include swimming, boating, walking along the beach, and views of the lake.

This property was physically inspected by staff for purposes of evaluating the impact on the public trust.

7. All permits issued at Lake Tahoe include special language in which the permittee/lessee agrees to protect and replace or restore, if required, the habitat of Rorippa subumbellata, commonly called the Tahoe Yellow Cress, a State-listed endangered plant species.

CALENDAR ITEM NO. 13 (CONT'D)

8. All applicants at Lake Tahoe will be notified that the public has a right to pass along the shoreline and the permittee must provide a reasonable means for public passage along the shorezone area occupied by the permitted structure.
9. All permits covering structures in Lake Tahoe will include a condition subsequent that if any structure authorized is found to be in nonconformance with the Tahoe Regional Planning Agency's shorezone ordinance and if any alterations, repairs, or removal required pursuant to said ordinance are not accomplished within the designated time period, then the permit will be automatically terminated, effective upon notice by the State, and the site shall be cleared pursuant to the terms thereof.
