AUTHORIZE A COMPROMISE TITLE SETTLEMENT AND EXCHANGE
AGREEMENT BETWEEN THE STATE AND PORT COSTA MATERIALS, INC.;
AUTHORIZE A LEASE TO PORT COSTA MATERIALS, INC.; AND AUTHORIZE
A PUBLIC AGENCY PERMIT TO THE EAST BAY REGIONAL PARK DISTRICT;
CONCERNING LANDS LOCATED IN AND ALONG THE CARQUINEZ STRAITS;
NEAR THE TOWN OF PORT COSTA, CONTRA COSTA COUNTY.

BACKGROUND:

A title dispute exists between the State, acting by and through the State Lands Commission ("State"), and Port Costa Materials, Inc., a California corporation ("Port Costa"), concerning ownership of approximately one hundred sixty-eight (168) acres of real property in and along the Carquinez Straits near the town of Port Costa in Contra Costa County ("Subject Property"). The Subject Property consists of two parcels lying on either side of Southern Pacific Railroad tracks, together with the right to cross said tracks, and is shown for reference purposes only on Exhibit "A", and is more particularly described in Exhibit "B", attached hereto and by this reference incorporated herein. Port Costa is the record owner of the Subject Property, and claims ownership as a successor in interest to recipients of a State patent conveying lands included within Tideland Survey No. 32, issued in 1877 ("TLS 327"), and a Mexican rancho grant.

Commission staff has conducted a study of the evidence of title to the Subject Property, and has concluded that approximately eighteen (18) acres of the Subject Property, in its last natural condition, consisted of tidelands and submerged lands in the Carquinez Straits of San Francisco Bay. Staff has further concluded that that portion of the lands purportedly

CALENDAR PAGE	381
MINUTE PAGE	764

conveyed by TLS 32 which encompasses the Subject Property lay within two miles of the City of Martinez. The Act of April 4, 1870 (Statutes of 1869-1870, page 875), prohibited the sale of any tidelands within two miles of any town or village. Staff therefore contends that TLS 32 was invalid to convey the State owned lands within the Subject Property, and that even if TLS 32 were found to be valid to convey all or a portion of the tidelands, as they last naturally existed, within the Subject Property, said tidelands would have passed into private ownership subject to a public trust easement retained by the State. Staff further contends that the State had no authority to transfer any submerged lands, lying below the ordinary low water mark as it last naturally existed, within the Subject Property, and that any such submerged lands remain in sovereign fee ownership of the State.

Port Costa disagrees with Staff's conclusions as to the character and location of the lands within TLS 32; and contends that TLS 32 was valid to convey fee title to the lands described therein, and that even if TLS 32 were originally defective, any such defects were cured by subsequent State actions. Further, Port Costa contends that the State's public trust easement extends only over those lands which presently lie below the ordinary high tide line.

Approximately seven (7) acres of tidelands and submerged lands within the Subject Property have been filled over the years as a result of railroad construction, and more recently, haphazard placement of rock, earth, and debris, and brick in conjunction with the operation of the Port Costa brickworks on the adjacent upland. Port Costa contends that the shoreline of the Subject Property has been affected by natural accretions. As a result of these activities, there is substantial doubt as to the true location of the boundary between State interests and Port Costa ownership within the Subject Property.

PROPOSED SETTLEMENT

Port Costa has offered to resolve the above described title dispute by written agreement in compromise settlement of legal and evidentiary issues. The staff of the State Lands Commission recommends approval of the proposed settlement in substantially the form of agreement now on file with the Commission.

While the agreement sets forth all the specific terms and conditions of the settlement, a brief summary of the principal terms and conditions is set forth below.

1. Port Costa will quitclaim to State any right, title, and interest held by Port Costa in a parcel of approximately eleven (11) acres, lying waterward of the current mean high tide line ("State Parcel"), shown for reference purposes only on Exhibit "C", attached hereto;
2. Port Costa will grant to the State fee ownership of approximately eight (8) acres of upland property commonly known as White's Resort ("White's Resort Parcel") which abuts and has access to the Carquinez Scenic Highway, a public road, shown for reference purposes only on Exhibit "C", attached hereto, together with any easements or rights to pass over the Southern Pacific Railroad tracks appurtenant thereto; and
3. In exchange for the Port Costa quitclaim and grant deed described above, the State will quitclaim to Port Costa any interest it may have in the Port Costa Parcel, including approximately seven (7) acres of filled-tide or submerged lands, which have been, and will continue to be, used in conjunction with production of bricks and aggregate at the Port Costa Brickworks, and which are shown for reference purposes only on Exhibit "C", attached hereto.

Precise legal description of the State Parcel, White's Resort Parcel, and the Port Costa Parcel, will be based, in part, upon a survey which has been submitted to Contra Costa County for recording. When the County has accepted the survey for recording, final legal descriptions of the three parcels will be completed by staff.

Staff has appraised the interests to be exchanged in this proposed title settlement, and is of the opinion that the value of the lands to be received by the State is equal to or greater than the value of the lands to be relinquished by the State. This proposed settlement agreement will be exempt from the requirements of the California Environmental Quality Act ("CEQA") as a statutorily exempt project pursuant to Public Resources Code Section 21080.11.

PORT COSTA LEASE

Port Costa wishes to lease approximately 2.1 acres within and adjacent to the State Parcel for purposes of constructing a barge off-loading facility to transport raw materials for use in the manufacture of brick and aggregate. There will be no conveyance of petroleum or hazardous materials across the lease premises. Staff has negotiated a lease for this purpose, a copy of which is on file in the office of the State Lands Commission, the essential terms of which are as follows:

CALENDAR ITEM NO. 55 (CONT'D)

1. Term of twenty years, beginning May 1, 1990, and ending April 30, 2010;
2. Rent to be \$1,890 per year, subject to modification by Lessor at five year intervals;
3. Liability insurance to be provided in the amount of \$500,000, and a surety bond in the amount of \$5,000.

This lease will be categorically exempt from CEQA as a new construction of a small structure, Class 3, pursuant to CEQA Guidelines Section 15303.

EAST BAY REGIONAL PARK DISTRICT PERMIT

The East Bay Regional Port District would like to add the White's Resort Parcel, and the fishing pier located within the State Parcel adjacent to the White's Resort Parcel, to their shoreline park system. Staff therefore proposes to issue to the District a 49-year public agency permit for public access and park purposes. This permit would be categorically exempt from CEQA as an existing facility, Class 1, pursuant to CEQA Guidelines Section 15301.

CONCLUSION

Staff believes that the proposed Compromise Title Settlement and Exchange and leases outlined above will result in providing greater public access to the State's lands and will avoid the substantial costs and uncertainties of litigation which would otherwise be necessary to resolve the title dispute, and therefore recommends approval of the agreement, the lease to Port Costa, and the public agency permit to the East Bay Regional Park District.
