RATIFY THE EIGHTH MODIFICATION OF THE
1990-91 PLAN OF DEVELOPMENT AND OPERATIONS AND BUDGET,
LONG BEACH UNIT, WILMINGTON OIL FIELD,
LOS ANGELES COUNTY

The City of Long Beach has requested approval of the Eighth Modification of the 1990-91 Plan of Development and Operations and Budget, Long Beach Unit. The Modification would approve relocation of a segment of the active gas shipping line (JL-2) to the Lomita gas processing plant. The project is required to accommodate a Port of Long Beach railroad yard expansion in the north harbor area. This expansion was not foreseen when the Unit 1990-91 Plan and Budget was approved by the Commission in March 1990. Under the Port's pipeline permit conditions, the work must be accomplished at the expense of the Unit and construction begun within 60 days following notification by the Port. The estimated cost of the work is \$250,000.

The project was approved by the Unit Voting Parties as an emergency determination (No 143-90) on November 21, 1990. Because of the 60 days time constraint, the Commission's Executive Officer and the Long Beach City Manager have mutually consented to the Eighth Modification under the provisions of Chapter 138/64 1st E.S., Sec. 5 (g). That consent is being presented hereby to the Commission for ratification.
