OTHER PERTINENT INFORMATION:

1. This activity involves lands identified as possessing significant environmental values pursuant to P.R.C. 6370, et seq. Based upon the staff's consultation with the persons nominating such lands and through the CEQA review process, it is the staff's opinion that the project, as proposed, is consistent with its use classification.
2. Pursuant to the Commission's delegation of authority and the State CEQA Guidelines (14 Cal. Code Regs. 15061), the staff has determined that this activity is exempt from the requirements of the CEQA as a categorically exempt project. The project is exempt under Class 4, Minor Alteration to Land, 14 Cal. Code Regs. 15304.

Authority: P.R.C. 21084 and 14 Cal. Code Regs. 15300.

3. The Lessee proposes to change the location of the temporary summer bridge due to the fact that the Eel River meanders within its banks in the area of the current lease. This meandering has made it difficult to install the temporary bridge at the current location each season as planned.

The Lessee proposes to relocate the seasonal bridge approximately 1,500 feet upstream at a point where the river is more stationary and a crossing can be effected with much less environmental disturbance. The actual seasonal installation of the bridge will remain essentially as described in the current lease.

Staff of the Department of Fish and Game has indicated that recreational navigation of the river at this

location is virtually non-existent after Memorial Day of each year. The Applicant proposes a four-foot minimum clearance between the temporary bridge and the water's surface.

4. The primary purpose for installing the bridge each year is to provide transportation of forest products to the Scotia mills.
5. The bridge placement will occur no earlier than June 1 of each year and will be removed no later than October 1 of each year.
6. The lease area shall be increased from 0.046 acre to 0.11 acre.
7. The Lessee has agreed to supply staff with dated photographs showing all angles of the site from the ground to be taken before construction, after the bridge is in place, and after the bridge is removed each year.
8. All other terms and conditions of the lease remain in full force and effect.
