BOUNDARY LINE AGREEMENT

PARTY:

REGENCY-WILSON III, a California
limited partnership
1233 West Shaw Avenue, Suite 105
Fresno, California 93711

The staff of the Commission has negotiated a settlement agreement with Regency-Wilson III that will establish a fixed boundary between the private parties upland ownership and the public trust interests of the State in the bed of the San Joaquin River. This boundary line will conform to the high water line as shown on those maps prepared by Commission staff, entitled Administrative Maps of the San Joaquin River, between Friant Dam and the State Highway 99 crossing.

The proposed agreement contains quitclaims from the State to Regency-Wilson III covering the lands landward of the agreed boundary and from Regency-Wilson III to the State of any interest in the bed of the San Joaquin River below the agreed boundary. The property which is covered by this agreement is located in the City of Fresno. The City will be receiving property rights to certain lands landward of the agreed boundary and will need to have access to its property to assure that the bank slopes are properly maintained. It is the intent of the private party to provide this access and right to maintain the existing slopes in the area.

Staff believes it is in the best interest of the State to enter into the proposed agreement pursuant to the provisions of Division 6 of the Public Resources Code, with particular reference to Section 6357 to define the extent, nature, location and area of public and private ownership together with the boundary between them. The agreement will settle any dispute over the location of the boundary between the State and the private party in this location without the need for costly and protracted litigation.
