OTHER PERTINENT INFORMATION:

1. As to the placement of riprap, pursuant to the Commission's delegation of authority and the State CEQA Guidelines (14 Cal. Code Regs. 15304.

Authority: P.R.C. 21084 and 14 Cal. Code Regs. 15300.

2. This activity involves lands identified as possessing significant environmental values pursuant to P.R.C. 6370, et seq. Based upon the staff's consultation with the persons nominating such lands and through the CEQA review process, it is the staff's opinion that the project, as proposed, is consistent with its use classification.
3. A Recreational Pier Permit was issued for the dock by Commission action on June 11, 1990 and is rent-free pursuant to Section 6503.5 of the P.R.C. The Permittee needs to place riprap along adjacent shoreline to halt erosion. Therefore, for ease of recordkeeping and to eliminate the issuance of two separate permits for the same area, staff wishes to consolidate the Recreational Pier Permit into a General Permit - Protective Structure and Recreational Use.
