CONSENT TO UNITIZE THE LEASED LANDS
OF STATE GEOTHERMAL RESOURCES LEASE PRC 6837
INTO THE TRUCKHAVEN II GEOTHERMAL UNIT,
IMPERIAL COUNTY

LESSEE (OPERATOR):

Magma Power Company
Attn: Lou R. Hammond
4365 Executive Drive, Suite 900
San Diego, California 92121

AREA, TYPE LAND AND LOCATION:

State Geothermal Resources Lease PRC 6837 consists of approximately 3,081 acres of vacant, patented State school lands situated in western Imperial County, about five miles south of Salton City, California.

PROPOSED UNIT:

Magma, as operator under State Geothermal Resources Lease PRC 6837 (Magma 75% and Union 25%) has requested that the State lease be included in a geothermal unit designated "Truckhaven II". The unit includes federal, private and State lands for a total of 32,117 acres (see attached Exhibit "B"). Only lands under active geothermal lease within the unit boundaries will be committed to the unit. The participation of lands within the unit shall be on an acreage basis and, upon establishment of production, the Participating Area shall be determined for each pool or deposit of geothermal resources and production shall be deemed equal throughout the Participating Area.

CALENDAR ITEM NO. C51 (CONT'D)

Magma has proposed to drill a unit well on privately leased lands which will be within 1,000 feet of State leased land, meeting the drilling obligation under the State lease. It is anticipated that the well will be drilled before June 1993. Section 6923 of the P.R.C. and paragraph 13 of the lease provides that the Commission may approve a unit plan of development for the purpose of conserving the geothermal resources within the area. Staff has reviewed the Unit Agreement and recommends that the Commission authorize the commitment of State Lease PRC 6837 to the Truckhaven II Geothermal Unit.
