APPROVAL OF A GENERAL PERMIT - RECREATIONAL AND  
RESIDENTIAL USE

**APPLICANT:**

Dan D. Marsh  
420 Moonraker Drive  
Vallejo, California 94590

**AREA, TYPE LAND AND LOCATION:**

A 987-square-foot parcel of tide and submerged land in Mare  
Island Straits, Sandy Beach, City of Vallejo, Solano County.

**LAND USE:**

Residential deck (347 square feet) and recreational dock  
(640 square feet).

**BACKGROUND:**

On April 1, 1868, the State issued Tideland Survey numbers  
10 and 11, Solano County. In ensuing years, without  
boundaries being exactly known, the patented area was  
subdivided into numerous small lots which were developed  
with homes built upon pilings. Staff has found that many of  
the porches, decks, and small portions of some residences  
encroached below the adjudicated low water line, onto  
sovereign lands.

Upon advice from the staff of the Attorney General, that  
residential use is not consistent with the Public Trust  
under which the Commission holds State-owned sovereign  
lands, and should be permitted at Sandy Beach only to the  
extent it now exists, for only so long as the State's lands  
are not needed for true Public Trust purposes.

Dan Marsh has applied to the Commission for a lease of  
State-owned lands for reconstruction of the existing  
improvements located at #2 Sandy Beach Road. The proposed  
reconstruction includes patented tidelands, subject to the

State's Public Trust easement, upon which the new residence and a portion of deck are located, and the area waterward of the adjudicated low water line which is occupied by the remainder of the reconstructed deck and dock (area has been reduced by 987 square feet). Rental is charged only upon the deck area waterward of the adjudicated low water line, approximately 347 square feet; the dock is rent-free pursuant to the Public Resources Code 6503.5.

The proposed lease contains specific provisions prohibiting expansion of the existing structures, and requires the removal of residential structures from the State's lands under specific circumstances. Because the structures to be authorized below the adjudicated low water line does not appear to constitute a nuisance, staff recommends issuance of the proposed lease subject to the conditions contained therein, including, but not limited to, the specific provisions for uses within the Public Trust Easement (those lands located between the adjudicated low water line and the adjudicated high water line).
