**Consideration:**

The public health and safety, with the State reserving the right at any time to set a monetary rental if the Commission finds such action to be in the State's best interest.

**Special:**

1. The lease premises will only be used by public law enforcement agencies and not by the general public.
2. Since the site is being considered as a marsh restoration site, the Commission reserves the right to terminate the lease upon providing sixty (60) days written notice to Lessee, after which Lessee shall remove all improvements at its sole expense and risk and the site will be restored to its original condition.
3. Section 4, Paragraph 12(e) is amended to require Lessee to remove or remediate, if required by Lessor or other public agency, the lead from the firing range, as well as the other substances described in said paragraph.

**BASIS FOR CONSIDERATION:**

Pursuant to 2 Cal. Code Regs. 2003.

**APPLICANT STATUS:**

Applicant is permittee of upland.

**PREREQUISITE CONDITIONS, FEES AND EXPENSES:**

Filing fee and processing costs have been received.

**STATUTORY AND OTHER REFERENCES:**

- A. P.R.C.: Div. 6, Parts 1 and 2; Div. 13.
- B. Cal. Code Regs.: Title 3, Div. 3; Title 14, Div. 6.

**AB 884:**

11/19/93.

**OTHER PERTINENT INFORMATION:**

1. The City of Novato obtained a five-year lease from the Commission in 1988 to maintain a law enforcement firing range. The limited lease term was imposed because the State Department of Fish and Game had expressed interest in leasing the parcel for wildlife purposes,

but had no objection to the five year lease term. The site is now being considered as a marsh restoration site using dredged material. The U.S. Army Corps of Engineers, San Francisco District, is currently preparing a marsh restoration plan for the site; however, to date, funding has not been obtained for its implementation. Staff of the Commission contacted the State Department of Fish and Game, the San Francisco Bay Conservation and Development Commission, and the U.S. Army Corps of Engineers to determine if they had any objections to issuing a three-year lease to the City for this continued, existing use. None of the agencies expressed objection since 1) it was for a limited term, 2) the lease contains a 60-day termination clause, and 3) the Commission's standard lease provisions require that the lease premises be restored as nearly as possible to its original condition.

2. This activity involves lands which have not been identified as possessing significant environmental values pursuant to P.R.C. 6370, et seq. However, the Commission has declared that all tide and submerged lands are "significant" by nature of their public ownership (as opposed to "environmentally significant"). Since such declaration of significance is not based upon the requirements and criteria of P.R.C. 6370, et seq., use classifications for such lands have not been designated. Therefore, the finding of the project's consistency with the use classification as required by 2 Cal. Code Regs. 2954 is not applicable.
3. Pursuant to the Commission's delegation of authority and the State CEQA Guidelines (14 Cal. Code Regs. 15061), the staff has determined that this activity is exempt from the requirements of the CEQA as a categorically exempt project. The project is exempt under Class 4, 14 Cal. Code Regs. 15304(d).

Authority: P.R.C. 21084, 14 Cal. Code Regs. 15304, and 2 Cal. Code Regs. 2905.
