OTHER PERTINENT INFORMATION:

1. This is a continuation of an ongoing activity under an existing State lease. San Diego Gas and Electric Company has been depositing spoils at the subject site since 1954. Only nominal annual rent is charged for the use of this parcel, but the public is benefitted by the enhancement of the adjacent Carlsbad State Beach and other downcoast beach areas by sand distribution and replenishment through the littoral process.

2. The Department of Parks and Recreation does not object to the spoils deposit fronting their upland provided the Lessee does not deposit the spoils in the period between Memorial Day and Labor Day.

The lease will be terminated if the State finds that the dredged material is unsuitable for a public beach.

3. To avoid potential impacts to the California Least Tern breeding period and grunion spawning period, dredging of the lagoon can only occur between October 1 and April 15.

4. On February 17, 1994, the California Coastal Commission granted permit amendment 6-93-193-A for this project under its certified regulatory program (14 Cal. Code Regs. 15251(c)).

5. Staff has reviewed the document and determined that the conditions, as specified in 14 Cal. Code Regs. 15253 (b) have been met for the State Lands Commission to use the environmental analysis document certified by the Coastal Commission as a substitute for a Negative Declaration in order to comply with the requirements of CEQA.

CALENDAR ITEM NO. C84 (CONT'D)

6. This activity involves lands identified as possessing significant environmental values pursuant to P.R.C. 6370, et seq. Based upon the staff's consultation with the persons nominating such lands and through the CEQA review process, it is the staff's opinion that the project, as proposed, is consistent with its use classification.

2. FIND THAT THIS ACTIVITY IS CONSISTENT WITH THE USE CLASSIFICATION DESIGNATED FOR THE LAND PURSUANT TO P.R.C. 6370, ET SEQ.
