**OTHER PERTINENT
INFORMATION:**

On July 16, 1987, the Commission issued a 49-year Public Agency Lease to the California Tahoe Conservancy for the construction and maintenance of two artificial, experimental reefs for fish feeding, spawning and cover habitat.

On June 11, 1990, the Commission approved an Amendment for the expansion of the artificial reef off Kiva Bay. The expansion was to be completed by November 30, 1990. However, the Conservancy never implemented the reef expansion due to insufficient funding.

Presently the Conservancy wishes to proceed with the expansion and requested the Commission to extend the construction completion date to two years from the date of Commission approval.
