**CONSIDER APPROVAL OF DEFERMENT OF DRILLING OBLIGATION,  
STATE OIL AND GAS LEASE NO. PRC 3314,  
VENTURA COUNTY**

**LESSEE/OPERATOR:**

Berry Petroleum Company  
Ralph E. McPhetridge, Land Manager  
PUBLIC RESOURCES CODE SECTION O. Bin X  
Taft, California 93268

**AREA, TYPE LAND AND LOCATION:**

State Oil and Gas Lease PRC 3314.1 contains approximately 5,430 acres of tide and submerged lands located west of Oxnard in Ventura County.

**BACKGROUND:**

State Oil and Gas Lease No. PRC 3314.1 was issued on July 1, 1965. The current lessee of Lease No. PRC 3314.1 is Shell Western E&P, Inc. (SWEPI). On May 31, 1994, the State Lands Commission approved a deferment of drilling obligations under State Oil and Gas Lease No. PRC 3314.1 until August 1, 1996. The deferment was granted so that Berry, as lease operator, could continue to study alternatives which would decrease the operating expenses for this field and improve the economics associated with further field development.

The uncertainty of California oil prices and the need to identify ways to reduce costs have delayed any decisions regarding the drilling of additional wells under this lease. Berry is currently discussing different royalty scenarios with Commission staff for the purpose of encouraging further activity on this lease. Because of the foregoing, Berry is requesting an additional deferment of drilling until August 1, 1998.

This deferment will allow Berry to study further the complex geology on this lease, continue to discuss different royalty scenarios with Commission staff and, hopefully, allow time for the crude oil market in California to stabilize.
