2. The Marin Rowing Association uses the existing pier, ramp and floating dock for the purpose of conducting competitive crew boat-rowing training. In order to maintain a navigable depth, the Association proposes to dredge a maximum of 2,500 cubic yards of material from the leased lands during the lease term. This will be done in two separate operations, with the first proposed for 1998, and the second five to eight years later. The dredged material will be disposed of at the Corps of Engineers/EPA approved Alcatraz Aquatic Disposal Site, SF-11.
  
3. As for the pier, ramp and floating dock, pursuant to the Commission's delegation of authority and the State CEQA Guidelines (Title 14, California Code of Regulations, section 15061), the staff has determined that this activity is exempt from the requirements of the CEQA as a categorically exempt project. The project is exempt under Class 1, Existing Facilities; Title 2, California Code of Regulations, section 2905 (a) (2). Authority: Public Resources Code section 21084 and Title 14, California Code of Regulations, section 15300 and Title 2, California Code of Regulations, section 2905.  
  
As for the maintenance dredging, pursuant to the Commission's delegation of authority and the State CEQA Guidelines (Title 14, California Code of Regulations, section 15061), the staff has determined that this activity is exempt from the requirements of the CEQA as a categorically exempt project. The project is exempt under Class 4, Minor Alteration to Land; Title 2, California Code of Regulations, section 2905 (d) (4). Authority: Public Resources Code section 21084 and Title 14, California Code of Regulations, section 15300 and Title 2, California Code of Regulations, section 2905.
  
4. This activity involves lands identified as possessing significant environmental values pursuant to Public Resources Code sections 6370, et seq. Based upon the staff's consultation with the persons nominating such lands and through the CEQA review process, it is the staff's opinion that the project, as proposed, is consistent with its use classification.
