AREA, LAND TYPE, AND LOCATION:

Oil and Gas Lease No. PRC 7961 contains 23.8 acres of tide, submerged and proprietary lands in the bed and vicinity of the Mokelumne River, San Joaquin and Sacramento counties.

BACKGROUND:

Negotiated subsurface (no surface use) Oil and Gas Lease No. PRC 7961 (Lease) was issued to Enron Oil and Gas Company (Enron) on May 12, 1997, and contains 14.5 acres of tide, submerged and proprietary lands in the bed and vicinity of the Mokelumne River in San Joaquin and Sacramento counties, California (leased lands). On July 11, 1997, the California State Lands Commission approved a revised land description adding acreage and bringing the total leased acreage to 23.8 acres. Under the terms of the Lease, the lessee is required to pay an annual rental of \$32.50 per acre (\$779.50 for 23.8 acres) and commence drilling operations on the leased lands within three years. No wells have been drilled on, into, or near the leased lands.

Public Resources Code section 6804.1 and Lease Paragraph 30 permit the lessee to make, at any time, a written quitclaim of all rights under the lease, or of any portion of the leased lands comprising a ten-acre parcel or multiple thereof in a compact form. The quitclaim is effective when filed with the State, subject to the continued obligation of the lessee and its surety to pay all accrued rentals and royalties and to abandon all wells drilled on the leased lands.

CALENDAR ITEM NO. C123 (CONT'D)

On April 23, 1998, the Commission's Long Beach office staff received the document "(Full) Quitclaim Deed for State Oil and Gas Lease". This document was dated April 21, 1998, and quitclaims back to the State all of the lessee's right, title and interest in the leased lands described in Exhibit A of Oil and Gas Lease No. PRC 7961 dated May 12, 1997.

A review of the Commission's files reveals that no default exists on the Lease, that the lessee has complied with all applicable laws and Lease provisions and has paid all rentals (no royalty is due as the leased lands were not developed).
