**PURSUANT TO CHAPTER 854, STATUTES OF 1971,
REVIEW AND CONSIDER APPROVAL OF LEASE, TERMINATION OF TRUST AND
CONVEYANCE OF PUBLIC TRUST LANDS FROM THE CITY OF LONG BEACH TO
THE TRUSTEES OF THE CALIFORNIA STATE UNIVERSITY,
FOR EXPANSION OF THEIR HEADQUARTERS, IN THE CITY OF LONG BEACH,
COUNTY OF LOS ANGELES**

APPLICANTS:

The Trustees of the California State University

On April 26, 1973 the California State Lands Commission (CSLC) approved Calendar Item 28 (Minute Item 30) of the Commission's April 1973 meeting. That item approved the requisite findings, pursuant to Chapter 854, Statutes of 1971, and authorized the City of Long Beach (City), as trustee of sovereign lands granted by Chapter 676, Statutes of 1911, as amended, to convey two parcels of filled tide and submerged lands (totaling 6.4324 acres) to the Trustees of the California State University (Trustees) for development of a headquarters building and nearby parking facility. The findings made by the Commission included that the lands were not needed for public trust purposes, that they were to be freed of the trust, that the right of surface and subsurface entry to the first 500 feet of the property was not needed for production of minerals and that the conveyance was in the best interests of the people of California.

Subsequently, the lands were transferred by the City to the Trustees and the headquarters and parking lot were constructed. The Trustees have now determined that they must reconstruct the headquarters building and to expand its size so as to relocate certain operations which are currently housed elsewhere. In order to do so the Trustees have

requested that the City transfer an additional two parcels (shown on Exhibits A and B) consisting of 0.22 acres and 0.15 acres of filled tide and submerged lands to the Trustees. The new headquarters are planned to be built on the former parking area and the current City trust lands and the existing headquarters are to be removed and replaced by a new parking facility.

The City entered into an Agreement with the Trustees on January 31, 1997, which provided for a lease to the Trustees for the project and agreed to later seek the Commission's approval of a transfer of the fee title to the Trustees. That is the stage of the process currently before the Commission. The Agreement provides that the City, *inter alia*, will:

- 1) Lease the subject lands for 50 years for a one time payment of \$1000.00
- 2) Seek approval by the CSLC of transfer of the subject lands (Exhibits A and B)
- 3) Allow use of city/trust lands for a temporary construction staging area

The Agreement also provides that the Trustees, among other things, will:

- 1) Pay to the City \$1000.00 for a fifty year lease of the subject lands
- 2) Maintain landscaped areas on a portion of city/trust lands (Exhibit C) adjacent to the subject lands
- 3) Make parking available for public use when not required for use of the Trustees
- 4) Participate in a traffic and parking management association for Queensway Bay, with an annual cost to the Trustees not to exceed \$5000.00

A Mitigated Negative Declaration and Addendum was prepared and adopted for this project by The Trustees of the California State University. The Commission's staff has reviewed such document.

The Commission staff has reviewed the information submitted by the City and the Trustees and based upon that information and its own investigation, make the recommendations provided below.
