2. On December 1, 1953, the Commission authorized a General Lease-Right of Way Use with Sierra Pacific Power Company. That lease expires on November 30, 2002. Sierra Pacific Power Company is now applying for a new lease.
3. The original lease covered a right of way area of 100 feet in width and 2,350 feet in length for a three-inch electric transmission power cable on submerged lands in Lake Tahoe across Emerald Bay. The applicant has requested a reduction in the width of the right of way from 100 feet to 10.5 feet because the original width is not necessary for safe operation and maintenance of the power cable. Staff is recommending a reduction in the width of the lease area.
4. Pursuant to the Commission's delegation of authority and the State CEQA Guidelines (Title 14, California Code of Regulations, section 15061), the staff has determined that this activity is exempt from the requirements of the CEQA as a categorically exempt project. The project is exempt under Class 1, Existing Facilities; Title 2, California Code of Regulations, section 2905 (a) (2).

Authority: Public Resources Code section 21084 and Title 14, California Code of Regulations, section 15300 and Title 2, California Code of Regulations, section 2905.

5. This activity involves lands identified as possessing significant environmental values pursuant to Public Resources Code sections 6370, et seq. Based upon the staff's consultation with the persons nominating such lands and through the CEQA review process, it is the staff's opinion that the project, as proposed, is consistent with its use classification.
