**OTHER PERTINENT INFORMATION:**

1. Applicant owns the uplands adjoining the lease premises.
2. On January 23, 1986, the Commission issued a General Lease – Commercial Use, Lease No. PRC 5354.1, to Fred Saber-Motamedi for the installation, use and maintenance of eight mooring buoys that are utilized for commercial and recreational purposes. Mr. Saber-Motamedi subsequently transferred his interest in the upland property to the Applicant. Lease PRC 5354 expired February 29, 2000, and is currently in holdover.
3. The Applicant has maintained a pier that is associated with the uplands, but the existing pier does not extend onto the Commission's leasing jurisdiction so a lease for the pier was not required. The Applicant proposes to demolish the existing pier and replace it with a new pier that will extend waterward from the upland property approximately 400 feet, which will require a lease from the Commission. The Applicant has submitted an application to replace the expired lease for the eight mooring buoys and includes, in addition to the existing eight mooring buoys, the construction, use and maintenance of the new pier.
4. The Applicant has a concessionaire that operates a watercraft rental business on the lake frontage area adjacent to the Applicant's upland property. The concession includes 16 personal watercraft, the above mentioned eight mooring buoys and one canoe. The Applicant has historically operated the watercraft rental concession above the Commission's area of jurisdiction. In the event any of the rental activities are conducted waterward of elevation 6223 feet, Lake Tahoe Datum, the Applicant will pay five percent of the gross income derived from these activities.
5. **Existing Mooring Buoys:** Pursuant to the Commission's delegation of authority and the State CEQA Guidelines (Title 14, California Code of Regulations, section 15061), the staff has determined that this activity is exempt from the requirements of the CEQA as a categorically exempt project.
