GENERAL LEASE - PUBLIC AGENCY USE

APPLICANT:

City of Encinitas
505 S. Vulcan Avenue
Encinitas, California 92024-3633

AREA, LAND TYPE, AND LOCATION:

Sovereign lands in the Pacific Ocean adjacent to South Carlsbad and Leucadia State Beaches, cities of Encinitas and Carlsbad, San Diego County.

AUTHORIZED USE:

Beach nourishment involving the placement of approximately 48,000 cubic yards of sand.

LEASE TERM:

Five years, beginning May 1, 2004.

CONSIDERATION:

The public use and benefit; with the State reserving the right at any time to set a monetary rent if the Commission finds such action to be in the State's best interest.

SPECIFIC LEASE PROVISIONS:

Insurance:

Liability insurance with coverage of no less than \$1,000,000.

OTHER PERTINENT INFORMATION:

1. Applicant has a right to use the uplands adjoining the lease premises.
2. The city of Encinitas has submitted an application to Commission staff to place approximately 48,000 cubic yards of sand adjacent to South Carlsbad and Leucadia State Beaches in the cities of Encinitas and Carlsbad. The beach fill will encompass an area approximately 50 feet

CALENDAR ITEM NO. C29 (CONT'D)

wide and 1,390 feet long. The sand is being made available by the developer of the upland Encinitas Resort Hotel. A California Coastal Commission condition of approval of the upland development required that any suitable material be placed on the adjacent beach. The material will be trucked from the upland site to the receiver beach through a trucking route on the South Carlsbad State Beach parking lot. A temporary access road will be constructed down the bluff to allow access to the parking lot. The temporary access road area will be restored to its current or improved condition upon completion of the project. Limited public access to the beach will be available during the operation. Safety personnel will be onsite to ensure that public safety is maintained.

The sand will be placed wholly on public property under the jurisdiction of State Parks and the Commission. Within the city of Carlsbad, the adjacent upland is public property owned by State Parks. In the city of Encinitas, the adjacent upland is a 60' bluff that is comprised of private properties. The Applicant will be required to perform a mean high tide line survey of the area prior to the replenishment project.

To avoid impacts to the California least tern, the western snowy plover and California grunion, no activity will occur between February 15 and September 15, without the prior approval of the State Department of Fish and Game and the U.S. Fish and Wildlife Service.

Previous beach replenishment projects that have occurred at the receiver site include the Batiquitos Lagoon Restoration Project in 1997, and the San Diego Association of Governments Regional Sand Replenishment Project in 2001.

3. A Mitigated Negative Declaration and Addendum, and Mitigation Monitoring Program were prepared and adopted for this project by the city of Encinitas. The Commission's staff has reviewed such document. The Addendum addressed minor alterations to the description of the receiver site and to the project timing and maintenance in response to comments received.
4. This activity involves lands identified as possessing significant environmental values pursuant to Public Resources Code sections 6370, et seq. Based upon the staff's consultation with the persons nominating
