3. The California Department of Fish and Game has amended its original Lake-bed Alteration Agreement #1600-2003-5101-R2 to incorporate the removal of the pre-existing pier referenced in 2 above, Environmental Conditions, in addition to those required for the proposed pier, are required by the Amendment, specifically, the revised work period is now October 1, 2004, to December 15, 2004 and the work is further restricted to periods of low lake levels and dry weather. Additional operating restrictions are designed to prevent the transport of sediment into the lake and to "remove all construction debris and unneeded materials and equipment out of the lake-bed", and prevent any materials hazardous to aquatic life from being washed into Donner Lake during the authorized activities.

4. **Removal of Existing Pier:** Pursuant to the Commission's delegation of authority and the State CEQA Guidelines (Title 14, California Code of Regulations, section 15061), the staff has determined that removal of existing pier is exempt from the requirements of the CEQA under the general rule that the CEQA applies only to projects which have the potential for causing a significant effect on the environment. The staff believes, based on the information available to it, that there is no possibility that this project may have a significant effect on the environment.
