**CONSIDERATION OF PERMANENT REGULATIONS REDUCING
THE FEE USED TO FUND CALIFORNIA'S MARINE INVASIVE
SPECIES CONTROL PROGRAMS**

PROPOSAL

The Commission's Staff is proposing the adoption of permanent regulations that reduce the fee required to fund California's Marine Invasive Species Program to \$400 for each voyage.

BACKGROUND

Under Section 71215(b)(2) of the Public Resources Code (P.R.C.), the Commission is authorized and directed to establish a fee (the Fee) to be used to fund the State's marine invasive species program. The fee is not to exceed \$1000 per voyage, defined as a transit by a vessel destined for any California port from a port or place outside of California.

The Fee was established initially at \$600 per voyage by emergency regulation that became effective on January 1, 2000. The Fee was reduced to \$400 per voyage, effective April 30, 2000 by emergency regulation. That emergency regulation was replaced on August 29, 2000 with permanent regulations setting the fee at \$400 per voyage. The Fee was further reduced to \$200 per voyage, effective July 1, 2002 by emergency regulation. That emergency regulation was replaced on November 14, 2002 with permanent regulations setting the fee at \$200 per voyage.

In 2003, the Governor and the Legislature reauthorized, expanded and renamed the law (Division 36. Marine Invasive Species Act, Chapter 491, Statutes of 2003). As a result, programs and budgets expanded. As a result of the expanded programs and budgets, the Fee was increased emergency regulation, to \$500 per voyage, effective

February 1, 2004. That emergency regulation was replaced June 3, 2004 with permanent regulations setting the fee at \$500 per voyage. Annual review of the Fund status by Board of Equalization and State Land Commission staff predicts that under conservative assumptions, a continued Fee set at \$500 is unnecessarily high.

Representatives from the community subject to the fee have concurred with the imposition of a flat fee for each voyage. Since January of 2000, the Commission Staff has met periodically with representatives from the regulated community in a Technical Advisory Group ("the TAG"). In 2000, the TAG took note of the fact that the budgets for the various programs through the end of 2003 have largely been established, so costs are essentially fixed. As a result, any reduction in the Fee for some would result in an increase in the Fee for others. The TAG therefore recommended a flat Fee for everyone.

In December 2004, staff from BOE and CSLC, after reviewing costs and other factors, recommended that the Fee be reduced to \$400 per qualifying voyage. The TAG was asked to respond to this proposed Fee reduction in December 2004 and has agreed with staff recommendations. This regulatory action would set the fee at \$400 per qualifying voyage on or before August 1, 2005.

The amount of the Fee earlier charged was based upon an analysis which entailed a number of assumptions, the primary one being that the financial needs for the program will be in accordance with the Budget Change Proposals which have been submitted to date. The other two assumptions were that the State would see about 6825 voyages each year against which the Fee could be levied and that the State would likely see a compliance rate of approximately 95%. These figures were based upon the experience of the shipping community and the Board of Equalization. Calculations were therefore based upon 6484 qualifying voyages per year. With these assumptions, the Commission and the TAG concluded that the Fee could be set at \$500 per voyage.

During an annual review of the Fund status by Board of Equalization and Commission staff in December 2004, several assumptions used to set the Fee at \$500 per voyage were reevaluated. Currently, the State is seeing a compliance rate of approximately 98%; and the number of qualifying voyages per year is approximately 6689 per year. Additionally, funds to operate the various agency's budgets were not released until July 1, 2004 resulting in an unexpected surplus of approximately \$2,000,000.00 in the Fund on July 1, 2004. Based on the current Fee amount of \$500 per voyage and the revised

assumptions, projections produce revenues that will exceed the costs of the programs mandated under the act. Utilizing the revised assumptions, the Commission and the TAG concluded that the Fee could be set at \$400 per voyage, on or before August 1, 2005 to cover the remaining program costs though FY 2009/2010.

The Commission Staff considered alternatives to the proposed amendments, but found none that would be more effective in carrying out the purpose for which the action is proposed and less burdensome to those who would be affected.
