**AUTHORIZE, AS SCHOOL LAND BANK TRUSTEE, THE EXECUTIVE OFFICER
TO EXECUTE A FINAL PARCEL MAP, AND AUTHORIZE MODIFICATION OF
SURFACE RIGHT OF ENTRY AFFECTING 100% RESERVED MINERAL INTEREST
IN APPROXIMATELY 13.95 ACRES OF SCHOOL LANDS LOCATED AT THE
INTERSECTION OF INTERSTATE 15 AND L STREET, CITY OF BARSTOW,
SAN BERNARDINO COUNTY**

APPLICANT:

Home Depot U.S.A., Inc.
Attn: George Ray - Real Estate Manager
3800 Chapman Ave., 5th Floor
Orange, CA 92868

AREA, LAND TYPE, AND LOCATION:

13.95 acres, more or less of State school land located at the intersection of
Interstate 15 and L Street, city of Barstow, San Bernardino County.

BACKGROUND INFORMATION:

At its meeting of April 26, 2005, pursuant to Item 45, the Commission approved
the sale and subsequent issuance of a Patent to Home Depot U.S.A., Inc.
(Applicant) for approximately 13.95 acres of school lands located at the
intersection of Interstate 15 and L Street in Barstow, San Bernardino County.
The sales contract was finalized and deposited along with the buyer's earnest
money into an escrow account on September 14, 2005.

The original Calendar Item contained a metes and bounds description of the
property to be conveyed. Subsequently, there have been several minor
modifications to that description. None substantially affect the project and the net
acreage remains unchanged. Also, the city of Barstow has required a parcel
map for the project. Tentative Parcel Map #05-03 was approved by the City on
May 24, 2005. The Final Parcel Map will be reviewed by Commission staff and
submitted to the Executive Officer for execution. Authority from the Commission

CALENDAR ITEM NO. C26 (CONT'D)

for the Executive Officer to do so is sought in this Calendar Item. The Final Parcel Map will then be submitted to the City for final approval and recorded in the Official Records of San Bernardino County. The property description in the Patent to Home Depot will describe the property by reference to the Final Parcel Map rather than the metes and bounds description in the Commission's original Calendar Item.

The sales contract also specifies that the State of California reserves 100% mineral interest in the subject property. Subsequently, the Applicant has submitted an application for the modification of the State's right of surface entry under section 6401(b) of the Public Resources Code. Staff of the Mineral Resources Management Division performed an analysis of the commercial mineral potential of the subject property. Their report concludes that there are no economic mineral deposits of any kind known to exist on the parcel. Based on this analysis, other geologic information, a local land use designation that currently does not permit mineral development, and the proximity of the subject property to existing urban areas, staff recommends that the Commission find, pursuant to Public Resources Code section 6401(b), that there are no commercially valuable mineral deposits in the upper 500 feet underlying the subject property. This finding will permit the orderly use and development of the subject property.

STATUTORY AND OTHER REFERENCES:

- A. Public Resources Code section 6401(b).

OTHER PERTINENT INFORMATION:

1. Pursuant to the Commission's delegation of authority and the State CEQA Guidelines [Title 14, California Code of Regulations, sections 15061(b)(1) and 15282], the staff has determined that this activity is statutorily exempt from the requirements of the CEQA because it involves an action taken pursuant to the School Land Bank Act, Public Resources Code, section 8710.

Authority: Public Resources Code section 8710.

2. This activity involves lands which have NOT been identified as possessing significant environmental values pursuant to Public Resources Code sections 6370, et seq. However, the Commission has declared that all tide and submerged lands are "significant" by nature of their public ownership (as opposed to "environmentally significant"). Since such

declaration of significance is not based upon the requirements and criteria of Public Resources Code sections 6370, et seq., use classifications for such lands have not been designated. Therefore, the finding of the project's consistency with the use classification as required by Title 2, California Code of Regulations, section 2954 is not applicable.
