

EXHIBIT C

All Subsequent Years

Table 2

| Part 1: Identification of GHG Amount Emitted | | | |
|---|-----|---------------------------------------|--|
| Reading from facility master meter. Total Annual Power Use (MWh/ year) | | Annual Emissions Factor from SDG&E | Total Annual Emissions (metric tons CO ₂ / year) |
| Part 2: On-site and Project-Related Reduction of GHG Emissions | | | |
| *With Reduced Water Importation | | | |
| *Without Reduction from Water Importation | | | |
| Part 3: Additional Off-Site Reductions of GHG Emissions | | | |
| Sequestration in Coastal Wetlands | N/A | N/A | |
| Sequestration Through Reforestation | N/A | N/A | |
| Potential Renewable Energy Partnerships | | | |
| Offset and REC Purchases | N/A | N/A | |
| Total | | | |
| Net Indirect GHG Emissions | | | |
