**CONSIDER APPROVAL OF  
QUALIFYING MILES FOR SUBVENTIONS  
TO CITIES AND COUNTIES FOR FISCAL YEAR 2008-2009,  
ORANGE, LOS ANGELES, VENTURA, AND  
SANTA BARBARA COUNTIES**

**APPLICANT:**

California State Lands Commission  
100 Howe Avenue, Suite 100 South  
Sacramento, CA 95625-8202

**BACKGROUND:**

Public Resources Code section 6817 provides for subventions of State tidelands oil and gas lease revenues to cities and counties under conditions described below, and requires the California State Lands Commission to report to the State Controller the amounts of revenues to be used for purposes of calculating subventions.

Public Resources Code section 6817 (a) provides that subventions shall be made to cities or counties that have within their boundaries active State tidelands oil and gas leases and that own or operate parks (public beaches) free of charge to the public for recreational purposes. In the case of the counties, these parks must be immediately adjacent to and have common frontage with an active State tidelands oil and gas lease.

The subventions made to a qualifying city or county for each fiscal year are determined by a subvention distribution formula in section 6817(a). A qualifying city or county may obtain one percent of the oil and gas revenues the State

CALENDAR ITEM NO. **C43** (CONT'D)

receives during a fiscal year from leases within its boundaries. The one percent share, however, may be limited to a maximum of \$100,000 for every mile or portion of a mile of qualifying beach park frontage owned or operated by the city or county. However, that limitation on the amount that may be apportioned to each city or county in each year does not apply to revenues from leases within the limits of the particular county or city that exceed the revenues paid to the State during the 1983-84 fiscal year.

In addition to the subventions that may be obtained under the provisions of Public Resources Code section 6817 (a), a city or county having within its boundaries a State tidelands oil and gas lease or leases may receive twenty percent of the revenues paid to the State for production of oil, gas and other hydrocarbons from the lease or leases, but not to exceed a total of \$200,000,000, adjusted for inflation, over a 20 year period. The oil, gas, or other hydrocarbons, however, must have been extracted under circumstances specified in the statute. These additional revenues and the circumstances under which they are payable are provided by subsections (b) and (c) of Public Resources Code section 6817, added by Chapter 613 of the Statutes of 1996. No cities or counties ever have qualified for these additional revenues.

With respect to each city and county, the apportionment for any given fiscal year shall be based upon the physical facts existing on June 30 of the preceding fiscal year. As of June 30, 2008, based on verification letters received by Commission staff from the cities and counties, the qualifying mileage upon which subventions for fiscal year 2008-2009 are to be based are listed in Exhibit A (attached hereto). The list of leases from which the subventions are payable for the qualifying cities and counties for fiscal year 2008-2009 is in Exhibits B and C (attached hereto).
