UNDER THE JURISDICTION OF THE
CALIFORNIA STATE LANDS COMMISSION**

APPLICANT:

San Diego Association of Governments
Attn.: Mr. Robert Rundle
401 B Street
San Diego, CA 92101-4231

BACKGROUND:

The geological surveys authorized under the terms of the permit are for the purpose of obtaining shallow samples of the seafloor for geotechnical information. The data obtained are used in the study of nearshore sand erosion and deposition for the purpose of identifying appropriate borrow sites for nearby beach replenishment. The shallow samples are obtained using nonrotary techniques (dart, jet, percussion, grab) from a self-contained vessel. The vessel is typically no larger than a fishing boat (usually 50 to 150 feet in length, with a six-foot draft). Upon request, the California State Lands Commission will receive copies of all data derived from any and all surveys under the permit.
