OTHER PERTINENT INFORMATION:

1. Applicants own the uplands adjoining the lease premises.
2. On June 19, 1998, the Commission authorized a General Lease - Recreational and Protective Structure Use to Bert Edward Blackwelder and Araminta Blackwelder for an existing uncovered floating boat dock, gangway, and bank protection. The upland property was subsequently deeded to Bert E. Blackwelder and Araminta D. Blackwelder. The lease expired September 26, 2008 and the Applicants are now applying for a new General Lease - Recreational and Protective Structure Use.
3. In 2006, the dock and gangway were destroyed in a storm and completely removed leaving the pilings and a portion of the stairs on the lease premises. The Applicants have requested to maintain the three pilings and concrete stairs under a new lease and will be replacing the floating dock and gangway within the term of the lease. The lease requires the removal of the pilings and stairs at the expiration of the lease in the event the Applicants do not install a new floating dock and gangway as required under the Lease.
4. The Applicants do not qualify for a rent-free Recreational Pier Lease at this time because the pilings and stairs are not associated or used for the docking or mooring of boats.
5. The bank protection will mutually benefit both the public and the Applicants. The bank of the Sacramento River will have the additional protection from wave action provided at no cost to the public.
6. **Thee Pilings, Concrete Stairs, and Bank Protection:** Pursuant to the Commission's delegation of authority and the State CEQA Guidelines (Title 14, California Code of Regulations, section 15061), the staff has determined that this activity is exempt from the requirements of the CEQA as a categorically exempt project. The project is exempt under Class 1, Existing Facilities; Title 2, California Code of Regulations, section 2905 (a)(2).
