3. Without advising the Commission, as was required in the lease, the Winchell's sold the upland property to Curtis D. Rapton, Trustee of the Curtis D. Rapton Trust dated March 21, 2002. the Applicant submitted an application for a new lease. During staff's review of the application, it was determined that in 2006 the existing dock structure was replaced with a larger uncovered single-berth floating dock without prior authorization from the Commission. The modified dock is supported by floats, and is attached to the riverbed via roller pile rings to one existing wood piling and one existing wood dolphin. Access to the dock is via a gangway. On August 27, 2009, the U.S. Army Corps of Engineers issued an "After the Fact" letter of permission authorizing the retention of the new dock dimensions and configuration and the larger gangway.

4. The Applicant qualifies for a Recreational Pier Lease because the Applicant is a natural person who owns the littoral land that is improved with a single family dwelling.
5. Pursuant to the Commission's delegation of authority and the State CEQA Guidelines (Title 14, California Code of Regulations, section 15061), the staff has determined that this activity is exempt from the requirements of the CEQA as a categorically exempt project. The project is exempt under Class 3, New Construction of Small Structures; Title 2, California Code of Regulations, section 2905 (c)(1).

Authority: Public Resources Code section 21084 and Title 14, California Code of Regulations, section 15300 and Title 2, California Code of Regulations, section 2905.

6. This activity involves lands identified as possessing significant environmental values pursuant to Public Resources Code sections 6370, et seq. Based upon the staff's consultation with the persons nominating such lands and through the CEQA review process, it is the staff's opinion that the project, as proposed, is consistent with its use classification.
