**CONSIDER APPROVAL OF
QUALIFYING MILES FOR SUBVENTIONS
TO CITIES AND COUNTIES FOR FISCAL YEAR 2010-2011,
ORANGE, LOS ANGELES, VENTURA, AND
SANTA BARBARA COUNTIES**

APPLICANT:

California State Lands Commission
100 Howe Avenue, Suite 100 South
Sacramento, CA 95625-8202

BACKGROUND:

Public Resources Code section 6817 provides for subventions of State tidelands oil and gas lease revenues to cities and counties under conditions described below, and requires the California State Lands Commission to report to the State Controller the amounts of revenues to be used for purposes of calculating subventions.

Public Resources Code section 6817 (a) provides that subventions shall be made to cities or counties that have within their boundaries active State tidelands oil and gas leases and that own or operate parks (public beaches) free of charge to the public for recreational purposes. In the case of the counties, these parks must be immediately adjacent to and have common frontage with an active State tidelands oil and gas lease.

The subventions made to a qualifying city or county for each fiscal year are determined by a subvention distribution formula in Public Resources Code section 6817(a). A qualifying city or county may obtain one percent of the oil and gas revenues the State receives during a fiscal year from leases within its boundaries. The one percent share may be limited to a maximum of \$100,000 for every mile or portion of a mile of qualifying beach park frontage owned or

operated by the city or county. However, that limitation on the amount that may be apportioned to each city or county in each year does not apply to revenues from leases within the limits of the particular county or city in excess of the revenues paid to the State during the base 1983-84 fiscal year.

In addition to the subventions under the provisions of Public Recourse Code section 6817(a), under certain circumstances a city or county having within its boundaries a State tidelands oil and gas lease or leases may receive twenty percent of the revenues paid to the State for production of oil, gas and other hydrocarbons from the lease or leases, but not to exceed a total of \$200,000,000, adjusted for inflation, over a 20 year period. These additional revenues and the circumstances under which they are payable are provided by subsections (b) and (c) of Public Resources Code section 6817, added by Chapter 613 of the Statutes of 1996. To date, no cities or counties ever have qualified for these additional revenues.

With respect to each city and county, the apportionment for any given fiscal year is based upon the physical facts existing on June 30 of the preceding fiscal year. As of June 30, 2010, based on verification letters received by Commission staff from the cities and counties, the qualifying mileage upon which subventions for fiscal year 2010-2011 are to be based are listed in Exhibit A (attached hereto). The list of leases from which the subventions are payable for the qualifying cities and counties for fiscal year 2010-2011 is in Exhibits B and C (attached hereto).
