- The First District Court of Appeal upheld the Commission's certification of the EIR and lease approval involving Chevron's Richmond Long Wharf Marine Terminal.

- The Commission generated \$242 million to the General Fund and \$4.2 million to STRS through its surface leasing and mineral operations during the first half of fiscal year 2011/12.
- In the Governor's 2012-2013 proposed budget, 6 new positions were allotted to the Commission to assist in consolidating school lands to facilitate renewable energy projects and other obligations set forth pursuant to Chapter 485, Statutes of 2011 (AB 982, Skinner). Pursuant to Chapter 485, an MOA between the Commission and the Bureau of Land Management will be presented to the Commission for its consideration at the next meeting.

Following obtaining input from the stakeholders, staff will make a recommendation, taking into consideration the information gained from the stakeholder meeting, whether it recommends that the rent calculation methodology should remain unchanged or that a different methodology should be used.
