OTHER PERTINENT INFORMATION:

1. Applicants own the upland adjoining the lease premises.
2. The State of California had its fee ownership of the sovereign land located in the Colorado River at this location confirmed in 1991 as a result of a Boundary Line Agreement and Compromise Settlement entered into between the Commission and Kahala Needles Partners, Ltd., a Nevada Limited Partnership, recorded as AD 134 dated January 1, 1991 and recorded on August 11, 1992, document No. 92-333250, Official Records, San Bernardino County, California. Projects, including new development or maintenance of existing facilities, extending waterward of the Ordinary High Water Mark (OHWM) fixed in the abovementioned Agreement (AD 134) require a lease from the Commission pursuant to Public Resources Code section 6501.1. The Applicants' upland property is located along the Colorado River adjacent to the fixed OHWM.
3. Pursuant to the above-mentioned Boundary Line Agreement and Compromise Settlement, the State of California was granted a perpetual public pedestrian accesses easement running parallel to the fixed OHWM. The easement is intended to provide public access to and along the bank of the Colorado River. The easement affects lots 1-40 of the Rio Buena Vista residential subdivision, one of which is the Applicants' property. Public access to the easement is from the northern or southern end of the subdivision, or from the Colorado River.
4. The United States Department of the Interior, Bureau of Reclamation (Reclamation), Yuma Area Office conducted a review by boat of the bankline on March 27, 2002 and also conducted a site visit on April 10, 2002. The inspection revealed that the bankline had been cleared of vegetation and that the federally applied riprap and federally constructed jetties were undisturbed and in good condition. By letter dated April 23, 2002, Reclamation acknowledged their capacity to apply additional riprap to the bankline at this location in the future was compromised due to the pending development of the upland residences and subsequently declared that Reclamation would not provide additional riprap to the bankline in the future. Consequently, Reclamation decreed that the upland homeowner (Applicants) would be responsible for maintaining protection of their own banklines in the future, subject to the homeowners seeking approval and permitting of their riprap or bankline construction work from the United

5. The stairs and the riprap bankline mutually benefit both the public and the Applicants and will be maintained by the Applicant at no cost to the public.
6. The staff recommends that the Commission find that the amendment of consideration does not have a potential for resulting in either a direct or a reasonably foreseeable indirect physical change in the environment, and is, therefore, not a project in accordance with the California Environmental Quality Act (CEQA).
