2. On October 22, 2009, the Commission authorized a General Lease – Recreational and Protective Structure Use with W. Glen Boyd. That lease will expire on October 21, 2019. On April 29, 2013, the upland was deeded to Tamara N. St Claire and Richard W. Geven. The Applicant is now applying for a General Lease – Recreational and Protective Structure Use. Staff is recommending termination of the existing lease because the Lessee cannot be located for execution of a lease quitclaim deed.
3. The bank protection will mutually benefit both the public and the Applicant. The bank of the Sacramento River will have additional protection for the river channel from wave action provided at no cost to the public.
4. **Lease Termination:** The staff recommends that the Commission find that the subject lease termination does not have a potential for resulting in either a direct or a reasonably foreseeable indirect physical change in the environment, and is, therefore, not a project in accordance with the California Environmental Quality Act (CEQA).

Authority: Public Resources Code section 21065 and California Code of Regulations, Title 14, sections 15060, subdivision (c)(3), and 15378.

5. **Issuance of New Lease:** The staff recommends that the Commission find that this activity is exempt from the requirements of CEQA as a categorically exempt project. The project is exempt under Class 1, Existing Facilities; California Code of Regulations, Title 2, section 2905, subdivision (a)(2).
6. Authority: Public Resources Code section 21084 and California Code of Regulations, Title 14, section 15300 and California Code of Regulations, Title 2, section 2905.
7. This activity involves lands identified as possessing significant environmental values pursuant to Public Resources Code section 6370 et seq., but such activity will not affect those significant lands. Based upon the staff's consultation with the persons nominating such lands and through the CEQA review process, it is the staff's opinion that the project, as proposed, is consistent with its use classification.
