
BIENNIAL REPORT
OF THE
SURVEYOR-GENERAL
OF THE
STATE OF CALIFORNIA

FROM
DECEMBER 4, 1871, TO AUGUST 1, 1873

[T. A. SPRINGER, STATE PRINTER.]

To His Excellency,
Newton Booth,
Governor of California:

SIR: I herewith beg leave to submit the following report of my official transactions, from December fourth, eighteen hundred and seventy-one, to August first, eighteen hundred and seventy-three.

I am, very respectfully, your obedient servant,

ROBERT GARDNER,
Surveyor General and ex officio Register of the State Land Office.

REPORT.

The State of California, commencing at about thirty-two degrees thirty minutes north latitude, extends north to the forty-second parallel, having an average width of about four degrees, and covers an area of about one hundred and eighty thousand square miles, or about one hundred and twenty millions of acres. So far as shown by the records of my office, there are about five thousand government townships in the State (whole and fractional); of these, two thousand two hundred and eighty-four have been surveyed by the United States, prior to January first, eighteen hundred and seventy-three, the remainder being unsurveyed. The State of California, under the several Acts of Congress, is granted the following lands:

First – Under the eighth section of the Act of September fourth, eighteen hundred and forty-one, the State is granted five hundred thousand acres for the purposes of internal improvement.

Second – Under the fourth section of the Act of September twenty-eighth, eighteen hundred and fifty, the State is granted all the swamp and overflowed lands within her border.

Third – Under the sixth section of the Act of March third, eighteen hundred and fifty-three, the State is granted the sixteenth and thirty-sixth sections in each township, or indemnity therefore in cases where the State cannot perfect her title, by reason of Spanish grants or prior sales by the United States. This grant comprises one eighteenth (1-18) of all the land in the State, or an aggregate area of about six millions of acres.

Fourth – Under section twelve, of the same Act, the State is granted seventy-two sections, or forty-six thousand and eighty acres, for the use of a seminary of learning.

Fifth – Under the thirteenth section of this same Act, the State is granted ten sections for the purpose of the erection of public buildings.

Sixth – Under the Act of July second, eighteen hundred and sixty-two, and Acts amendatory thereof, the State is granted one hundred and fifty thousand acres for the benefit of agriculture and the mechanic arts.

In addition to these grants, the State, by virtue of her sovereignty, is the owner of all the salt marsh and tide lands within her borders.

GRANT OF SIXTEENTH AND THIRTY-SIXTH SECTIONS, AND LANDS IN LIEU THEREOF.

On entering upon my official duties, the files of my office contained a large number of unapproved applications under this grant, made during the administration of my predecessor. An examination of these applications disclosed the necessity of procuring from the several United States Land Offices, certificates as to the condition of the lands applied for. These certificates were obtained, and wherever practicable, the applications on file were approved.

During the twenty months ending August first, eighteen hundred and seventy-three, I have issued approvals of two thousand one hundred and thirteen applications

for school lands, embracing five hundred and eighty thousand eight hundred and nine acres; these lands being principally situated in the Counties of Los Angeles, San Bernardino, San Diego, Kern, Fresno, Tulare, Mono, Inyo, Siskiyou, Lassen, Shasta, and Tehama.

Payment has been made, as required by law, upon two hundred and fifty-nine thousand five hundred and twenty-five acres of the land, for which such approvals were issued, which payments, consisting of twenty per cent of the purchase price, and one year's interest upon the unpaid balance, amount to about seventy-five thousand dollars.

Applications, embracing an area of three hundred and twenty-one thousand two hundred and eighty-three acres, have been forfeited for non-payment, and the land has reverted to the State, as provided by law. The aggregate of these forfeitures is large, but is attributable, generally, to natural causes. During the years eighteen hundred and sixty-eight and eighteen hundred and sixty-nine, much excitement existed upon all matters relating to real estate in California, and consequently a large field was open for speculation. Lands were applied for indiscriminately, with very little regard to location, value, or quality, with the expectation of realizing largely from future sales thereof. Since that time there has been a reaction, and real estate, for speculative purposes, has commanded neither ready sale nor prices commensurate with its value. Hence, when this large number of approvals was made by me, and the applicants compelled to make payment for the lands applied for, circumstances did not seem to justify the expenditures, except in instances where lands were of known value. Most of these forfeited lands – except where known to be valueless (as in the Mohave Desert) – have been reapplied for, and, under more favorable circumstances, the State will eventually realize from their sale.

There have been filed in my office, from December fourth, eighteen hundred and seventy-one, to August first, eighteen hundred and seventy-three, applications under this grant for lands embracing an area of seven hundred and twenty-four thousand eight hundred and seventy-eight acres. These applications have (when practicable) been approved by me, and in most instances payment made thereon.

A large number of contested cases, which had accumulated, I have disposed of, approving some and rejecting others. I have rejected over nine hundred applications, from which rejections no appeals have been taken, and in which my action has been final. Fifty-six cases of conflict have been certified by me to the proper Courts for judicial determination.

There have been received from the General Land Office, at Washington, during my term of office and prior to August first, eighteen hundred and seventy-three, lists embracing in the aggregate ninety-nine thousand nine hundred and twenty acres, certified by the United States to the State of California, in lieu of or as indemnity for sixteenth or thirty-sixth sections which have been lost to the State. The total number of acres certified to the State under this grant is four hundred and fifty-eight thousand seven hundred and seventy-seven.

Since the first of January, eighteen hundred and seventy-three, but few applications for lands in lieu of sixteenth or thirty-sixth sections have been made. This is accounted for by the fact that applications had been made prior to that time for an amount of land nearly equaling in area the lands lost to the State, and for which she would, under the prevailing construction of the grant, be entitled to indemnity. Also,

upon the date last mentioned, section three thousand five hundred of the Political code went into effect, providing that no applicant of this class should be allowed to purchase more than three hundred and twenty acres, while before that time there was no limit or restriction as to quantity.

I desire at this time to call your attention to the terms of this grant, which, as expressed by Congress, appear to me to be absolute and positive, without conditions or reservations. And I am of the opinion that title to these lands passed to and became vested in the State at the time of the grant, the subsequent survey thereof by the United States operating merely as a partition and segregation of State lands from those in the public domain. I am supported in this opinion by judicial authorities of the highest order, and by logical conclusions, having for their premises the terms of the grant itself. All other grants made to the State by the United States, reserve to the United States the lands of a mineral character, while this grant does not. The Act of Congress, in making this grant, allows the State indemnity only for such of the sixteenth and thirty-sixth sections as have been lost to the State by reason of prior grants or preemption, but provides no indemnity for loss to the State occasioned by the mineral character of the land granted. About one third, or two millions of acres of this grant, is located within the mineral belt, and had Congress intended a reservation thereof, it is reasonable to presume that the Act itself would have, in terms, expressed it, and protected its grantee by providing indemnity for the loss. On the part of the State, therefore, submission by her to any ruling of the General Land Office recognizing the right of the United States to make such reservation, will necessarily be followed by a pecuniary loss of such magnitude that it becomes imperative that any such reservation, or any action of the United States General Land Office tending to recognize such reservation, be resisted with energy and promptness, and be submitted to only when so decreed by the highest tribunal. I will refer, in support of my position in this behalf, to the recent decision of the Supreme Court of this State in the case of *Sherman v. Buick*, as, also, to the cases of *Higgins v. Houghton*, 25 Cal., p. 255; *Doll v. Meactor*, 16 Cal., p. 296; and *Van Valkenberg v. McCloud*, 21 Cal., p. 330. The Supreme Court of the United States has also made frequent decisions tending to the same end, as in the case of *Cooper v. Roberts*, 18 Howard, p. 173, and many others of like character.

Admitting my position to be correct, and the grant to be as contended – a grant “in presenti” – the title passing to the State at the date of the grant, State legislation is required for the protection of settlers upon sixteenth and thirty-sixth sections, who have purchased from the United States, and for whose lands the State has received indemnity. An Act relinquishing the right of the State to such lands, and granting them to the purchasers thereof from the United States (excepting, of course, in cases where said land has been sold as mineral), would be but equitable, offering every protection to the settler, and carrying out the policy of our Government.

GRANT OF FIVE HUNDRED THOUSAND ACRES.

There has been certified over to the State by the United States, under the grant of five hundred thousand acres for internal improvements, from December fourth, eighteen hundred and seventy-one, to August first, eighteen hundred and seventy-three, thirty-nine thousand four hundred and thirty-eight acres, making the total of lands certified to the State under this grant, prior to August first, eighteen hundred and

seventy-three, four hundred and thirty-seven thousand one hundred and eighty-three and sixty-two one hundredths acres.

I have received and filed twenty-two warrant applications under this grant, amounting to eight thousand three hundred and ninety-five acres.

GRANT OF SEVENTY-TWO SECTIONS.

There have been certified over to the State by the United States, from December fourth, eighteen hundred and seventy-one, to August first, eighteen hundred and seventy-three, sixteen thousand eight hundred and twenty-five acres; and the total number of acres so certified under this grant prior to August first, eighteen hundred and seventy-three, is forty thousand six hundred and four, or very nearly all of the grant.

GRANT OF TEN SECTIONS.

The total number of acres certified to the State under this grant is three thousand two hundred and three, being about one half of the grant.

SWAMP AND OVERFLOWED LANDS.

The United States has listed to the State under this grant, from December fourth, eighteen hundred and seventy-one, to August first, eighteen hundred and seventy-three, three hundred and ninety-four thousand one hundred and forty-four acres; and has, during the same time, patented to the State land that had been previously listed, amounting to three hundred and fifty-six thousand one hundred and forty-three acres. The total amount of this class of land listed to the State prior to August first, eighteen hundred and seventy-three, is one million fur hundred and twenty-three thousand five hundred and thirty-one acres. And the total amount of land patented by the United States to the State previous to said date, is one million two hundred and one thousand five hundred and seventy-one acres – the patenting having very nearly kept pace with the listing.

GRANT OF ONE HUNDRED AND FIFTY THOUSAND ACRES.

There has been certified thus far to the State under this grant, thirty-two thousand six hundred and twenty-four acres. I am unable to give information as to the disposition and sale of lands under this grant, as the management of the same is in the hands of the Board of Regents of the University of California.

MISCELLANEOUS.

The grant of five hundred thousand acres has all been sold by the State, with the exception of such portions thereof as are reserved for location under outstanding school land warrants. The grant of seventy-two sections, and the grant of ten sections, have all been sold.

PATENTING OF LANDS.

From December fourth, eighteen hundred and seventy-one, to August first, eighteen hundred and seventy-three, there have been issued to purchasers from the State, patents for four hundred and thirteen thousand five hundred and fifty-six (413,556) acre of State lands, as follows:

Grant of sixteenth and thirty-sixth sections, one hundred and sixty-one thousand nine hundred and sixty-three acres.

Grant of five hundred thousand acres, thirty-six thousand four hundred and sixty-nine and twenty-seven one hundredths acres.

Grant of seventy-two sections, five thousand one hundred and fifty-two and forty-three one hundredths acres.

Grant of ten sections, four hundred and eighty acres.

Swamp and overflowed lands, two hundred and seven thousand six hundred and eighty-two and ten one hundredths acres.

Tide lands, one thousand eight hundred and nine and twenty one hundredths acres.

REGISTER'S CERTIFICATES.

I have issued certificates for the return to purchasers of monies paid by them to the State on account of the purchase of State lands, amounting in aggregate to seventeen thousand five hundred and twenty-two dollars and sixteen cents (\$17,522 16). Of this amount, fifteen thousand and seventy-one dollars and seven cents (\$15,071 07) being payable out of the School Land Fund, and two thousand four hundred and fifty-one dollars and nine cents (\$2,451 09) out of the Swamp Land Funds of several counties. In the majority of instances, these certificates have been issued upon old unsurveyed locations in the San Francisco Land District, which have since proved not to be the property of the State. These certificates are issued as provided in section sixty-three of the Act of eighteen hundred and sixty-eight and its subsequent amendments, and in section three thousand five hundred and seventy-one of the Political Code.

STATE AGENCY AT WASHINGTON.

Under the provisions of the Act of the Legislature of this State, passed April first, eighteen hundred and seventy, entitled "An Act to perfect title to lands granted by the United States to the State of California, the Surveyor General was directed to appoint an agent to represent the State before the General Land Office in procuring the listing to the State by the United States of the lands applied for under the several grants. This Act has been perpetuated by the Codes, and the State has continuously been so represented by its agent. At the time of the passage of said Act, the claims of the State before the Department of the Interior were involved in much confusion, and purchasers were much harassed by long and perplexing delays in procuring title. Many conflicts existed between the United States and the State, and the emergency required, on the part of the State, a personal representation, to effect an adjustment of her claims and protect her interests as well as the interest of purchasers under her. At this time,

however, such necessity does not appear to exist. Most cases of conflict have been settled, the claims of the State have generally been adjusted in a satisfactory manner, and the object of the Act seems to have been accomplished. Business of the State before the United States departments meets with attention in due course, without personal exertion on behalf of the agent of the State. I am, therefore, of the opinion that legislation should be had upon this subject, with a view to the discontinuance of this State agency; especially so, as the law, as it now stands, entails an expense of two and one half cents per acre upon each purchaser of lands which are procured to be listed to the State. There may, of course, cases of conflict arise that would require more thorough attention than could consistently be expected from the officers of the United States departments, but, in such emergencies, the power to employ a special attorney would obviate the difficulty, without subjecting purchasers, whose lands were not in any manner involved in conflict, to the payment of the expenses of the contests of their less fortunate neighbors.

DELINQUENT PURCHASERS.

I would also call your attention to the existing laws governing the collection of delinquent interest upon sales of lands heretofore made by the State, and the annulment of title issued by the State, for reason of such delinquency. In this connection, I can but endeavor to show the effect of the present mode of procedure, without remarking upon its cause, or making suggestions of amendment, for the reason that the question of foreclosing, or annulling title already vested, on account of the neglect of the grantee to perform the conditions upon which he holds such title, has been, and still is, one that claims the attention of the highest legal and judicial ability. I am required each year to furnish to the District Attorney of each county in the State, a list of delinquents, as shown by the records of my office, without being allowed any discretion in cases of error or conflict. The annulments are subsequently had thereunder, and the School Fund forced to bear the expenses of all the necessary proceedings. After this, in every instance where the title of the State has failed, foreclosed purchasers ask for a return of all moneys paid by them on account of their purchase, and under the existing laws, and in equity, it cannot be refused to them. The State was the party in error, in issuing title for lands that did not belong to her, and when the failure of her title is established the purchaser from her must be reimbursed. Many annulments of certificates of purchase have been had during my term of office, and a heavy tax has been imposed upon the School Land fund by reason thereof; still, it is a fact worthy of comment, that in almost every instance where these proceedings upon annulment have been reviewed by the Courts, the decrees of annulment have been set aside. This fact alone is sufficient commentary upon the existing regulations concerning this questions, and demonstrates fully the imperative necessity of judicious legislation tending to the perfection of a system that will both enforce the payment of interest on sales of State lands, and (in cases of non-payment), afford a more effective and less expensive mode of procedure, and give finality to decrees of foreclosure when had. For the future, I am strongly inclined to the opinion that the best policy for the State to pursue, would be to sell her land for cash, payable within fifty days from the date of approval of applications. My reasons for advocating this policy are numerous, and appear to me to be conclusive. The State has sold most of the surveyed lands

belonging to her – the principal unsold lands being situated in the extreme northern portion of the State, and east of the Sierra Nevada mountains, in the southeastern portion. These unsold lands are valuable only for grazing purposes. One of the objects of the sale by the State of its lands, on an indefinite credit, was to encourage immigration and actual settlement; but this policy, when applied to the land now remaining unsold, is without effect, for the reason that such lands, in most instances, are not adapted to agricultural purposes, offer no inducements to settlers, and give very little encouragement to immigration. The very small portion of unsold territory that is adapted to such use is already in possession of settlers, who are ready and willing to purchase as soon as it is surveyed. In fact, the settler in California is, at this day, always ahead of the surveyors, and when the land he is in occupation of is in a condition to be sold, he can obtain the amount necessary to make his purchase on as good terms from others as will be given him by the State. It may be argued that the moneys received from the sales of State lands cannot be invested in any manner that will prove as lucrative as the present credit system. Still, I am of the opinion, that this objection will fail when the expenses of the proceedings for the collection of delinquent interest, and of suits for foreclosure, are taken into consideration. The United States seller her land for cash, and other States who have abandoned the system of credit sales and adopted the same policy, are satisfied with the results.

SWAMP AND OVERFLOWED LANDS.

Since the commencement of my term of office, on December fourth, eighteen hundred and seventy-one, and up to August first, eighteen hundred and seventy-three, there have been sold swamp and overflowed lands as follows:

Counties.	Acres.
Butte.....	132.60
Colusa.....	1,737.73
Contra Costa.....	2,467.57
Del Norte.....	109.20
Fresno.....	7,221.91
Humboldt.....	637.51
Kern.....	41,966.32
Sierra.....	480.00
Plumas.....	4,703.94
Marin.....	407.01
Merced.....	2,159.87
Lassen.....	3,240.00
Monterey.....	470.89
Mendocino.....	120.00
Napa.....	2,973.73
Sacramento.....	561.85
Siskiyou.....	1,796.90

San Mateo.....	160.00
San Joaquin.....	1,759.83
Tulare.....	43,609.91
Shasta.....	12,720.00
Solano.....	550.81
Sonoma.....	13,488.83
Sutter.....	1,751.00
Stanislaus.....	102.38
Santa Clara.....	193.64
Yolo.....	5,539.00
Tehama.....	1,000.00
Total acres.....	152,062.43

The conflicting claims of the State and the United States, for the past ten years, have rendered uncertain the title to a large amount of land sold by the State as swamp and overflowed. During the year eighteen hundred and sixty-one, the State authorities, in pursuance of an Act of the Legislature, caused a segregation survey to be made, and maps prepared, showing the swamp and overflowed lands in cases where the United States Surveyors had not established the segregation lines to the satisfaction of the State. On December fifth, eighteen hundred and seventy-one, the Honorable Secretary of the Interior rendered a decision to the effect that, in all townships surveyed prior to July, eighteen hundred and sixty-six, the State is entitled to the land she had segregated as swamp and overflowed, and the United States Surveyor General was directed to construct and approve township plats conforming to the State segregation maps, when the same were in accordance with the rectangular system adopted in the United States surveys.

Under this decision, lists were prepared of said lands and forwarded to the United States Surveyor General for his action thereupon; and if the intent of this ruling of the Department of the Interior is carried out, the claim of the State to these land swill be fully substantiated, and all matters of conflict relating thereto definitely settled.

During my term of office, many other decisions have been made concerning this class of land, of greater or less importance; all, however, tending to an adjustment of conflicts between the State and the United States, or between parties claiming under the State that have long incumbered the records of this office, and operated as a cloud upon the title to these lands. During the same period there have been received, and are on file, surveys for about one hundred and fifty thousand acres of swamp lands, which have not been approved. The delay in the approval of these surveys arises from various causes. The Government surveys, made within the last few years, have disclosed the fact that there are large tracts of swamp lands in the valleys near the summit of the Sierra Nevada range of mountains, of which the State had before no official knowledge. A considerable portion of these lands had been claimed and occupied for years for grazing purposes, yet the occupants could obtain no title to the same. In eighteen hundred and seventy, the Legislature passed an Act making such settlers preferred purchasers of the lands thus occupied, until the expiration of ninety

days from the date of the filing of the official township plat, showing such lands in the local United States Land Office. On making application to the United States Registers for the date of the filing of these plats, I was informed, in many instances, that they had not been received. On applying to the United States Surveyor General to ascertain the cause, I was informed that the want of sufficient clerical force in his office had caused the delay in preparing the copies for the several Land Offices. Surveys for a large amount of land which the State had previously sold, have been received – the resurvey having been made by the second party apparently on the hypothesis that the original sale was illegal. There are also many conflicts caused by two or more surveys having been made for the same tract. In such cases, an appeal to the Courts is generally necessary to determine the rights of the contestants. A large area of land has also been surveyed and returned to this office as swamp and overflowed, which is not shown to be such either by State segregations or by the United States maps.

RECLAMATION OF SWAMP AND OVERFLOWED LANDS.

The past two years has witnessed much activity in the prosecution of the work reclaiming the swamp and overflowed lands of this State. Attention having been called to improvements of this character, as well on account of the satisfactory results in many instances attained, as of the judicious legislation had upon the subject during the last legislative session. The spirit of the Act of Congress, granting to the State this class of land, is, that they be received by her as a trust; the lands to be sold by the State, and the proceeds of the sale devoted to the reclamation of the lands sold. State legislation regarding them is, therefore, necessarily confined to the arrangement of details for the fulfillment of this trust. The State realizing nothing directly from the sales made, but anticipating results that will add to her taxable property hundreds of thousand of acres of land of the most fertile character, the subject of reclamation becomes of vital importance, especially when it is taken into consideration that these lands, when successfully reclaimed, become at once the garden spots of California. The greater portion of them, from their location along the banks of navigable rivers and sloughs, are easy of access, and offer to those willing to undertake the work of reclamation, prospects of future remuneration which will justify any reasonable expenditure of labor. Before passage of the Act of eighteen hundred and sixty-eight, regulating the organization of reclamation districts, and the details of procedure under such organizations, no records were kept in my office of matters relating to works of reclamation; such proceedings having been had in the first instance before the State Board of Swamp Land Commissioners, and thereafter before the several County boards of Supervisors. I can, therefore, give no reliable statistics as to the organization of reclamation districts which were organized before the passage of said Act. The Act in question requires, however, that all such organizations be at once reported to this office, and I am thus enabled to enumerate the districts organized thereunder.

The total number of districts so organized prior to August first, eighteen hundred and seventy-three, is one hundred and nine (109), of which sixty-nine (69) were reported to this office previous to the commencement of my term of office, on December fourth, eighteen hundred and seventy-one, and are numbered and located as follows:

No.	County.	No.	County.
61	San Joaquin	101	Contra Costa
67	Colusa	102	Contra Costa
68	Sutter	103	Contra Costa
69	Sutter	104	Solano
70	Sutter	105	Solano
71	Sacramento	106	Contra Costa
72	San Joaquin	107	Contra Costa
73	Sacramento	108	Yolo
74	Sacramento	109	San Joaquin
75	Sacramento	110	San Joaquin
76	Sacramento	111	Kern
77	Colusa	112	Contra Costa
78	Tulare	113	Merced
79	Fresno	114	Marin
80	Fresno	115	Colusa
81	Tulare	116	Kern
82	Alameda	117	Sacramento
83	San Joaquin	118	Contra Costa
84	Solano	119	Lassen
85	San Joaquin	120	Kern
86	Merced	121	Kern
87	Colusa	122	Merced
88	Fresno	123	Solano
89	Sacramento	124	Colusa
90	Colusa	125	Fresno
91	Colusa	126	Solano
92	Colusa	127	Solano
93	Colusa	128	Colusa
94	Colusa	129	Sacramento
95	Santa Clara	130	San Joaquin
96	Lake	131	Merced
97	Lake	132	Merced
98	Fresno	133	Fresno
99	Contra Costa	134	Napa
100	Contra Costa		

The remaining forty (40) of these districts have been reported to me since December fourth, eighteen hundred and seventy-one, and are numbered and located as follows:

No.	County.	No.	County.
41Solano	150Yolo
53San Joaquin	151Contra Costa
57San Joaquin	152Tulare

148Sacramento	168Tulare
149Sacramento	169San Joaquin

The last legislature, having in view the importance of the work of reclaiming this class of land, as tending towards the development of the resources of the State, directed its attention with much earnestness towards the inauguration of measures that would most speedily confer upon the State the benefits that must accrue from a thorough and systematic reclamation, and at the same time hold out to purchasers thereof inducements sufficient to warrant them in undertaking works of such magnitude.

On the part of the State, the difficulty to be met, was in arriving at details of procedure that would carry out, both in spirit and letter, the Act of Congress donating these lands; that is, the direct application of the purchase of money to the reclamation of the lands. The tract books of my office were filled with the records of the unconsummated sales, and, although reclamation, in many instances, was complete, there was no practical mode provided by which the State could issue title and give finality to her sales. On the part of the purchasers, the great obstacle was the lack of capital with which to prosecute plans of reclamation. The majority of purchasers were laboring under a very onerous burden in the payment of assessments for this purpose, and were without means to pay the State in full for their lands. The lands themselves could not be hypothecated until they were patented by the State; and the State could not issue patents until payment in full was made. With these facts in view, the result of legislative deliberation was the passage of the Act of March thirteenth, eighteen hundred an seventy-two, creating the Board of Reclamation fund Commissioners, and authorizing the issuance and sale of bonds, the proceeds of which were to be applied to

reclamation purposes; and the Act of March sixteenth, eighteen hundred and seventy-two, which provides that upon proof being made that two dollars per acre in gold coin had been expended in works of reclamation, the purchaser should be credited with payment in full for his lands, and all moneys paid on account of the purchase thereof be refunded to him.

These two Acts, therefore, each presented a means by which the difficulties before recited might be surmounted; and their provisions were thoroughly canvassed throughout the State, with a view of deciding which of the means presented afforded to the purchaser the most immediate and effective relief. The Act creating the Board of Reclamation Fund Commissioners, on account of its cumbersome machinery, its multiplicity of detail, and the great expense attending its operation, has met with much disfavor, owners of land being disinclined either to impose upon their lands an incumbrance that would exist for a long term of years, or subject themselves to the payment of the expenses of the Board of Commissioners. This Act has therefore been as a dead letter, and although with certain alterations and amendments it is capable of becoming a practical benefit, in its present shape and with its present conditions, it is unwieldy and impracticable, and as such has been generally repudiated, land owners throughout the State having persistently refused to proceed under its provisions. On the other hand, the Act of March sixteenth, before referred to, has proved itself to be both practical and available, and has been of incalculable value in overcoming the difficulties with which both the sale and reclamation of these lands have been surrounded. Under its provisions, the owners of lands, after expending two dollars per acre for reclamation purposes, or upon completion of reclamation, receive credit for the payment in full of the purchase price of their lands, and a return of the moneys theretofore paid by them on account of its purchase, either as principal or interest. They then receive patents for their lands, and their title being perfected, are enabled to obtain money for the uses of reclamation on reasonable terms, and for such period of time as may best suit each individual owner. The most convincing evidence of the efficiency of this Act, and its adaptation to the purpose for which it was intended, is the favor with which it has been met, and the avidity with which land owners have availed themselves of its provisions.

Thirty-one reclamation districts have presented to my office certificates as to condition of reclamation, as required by said Act, and have received the benefit thereof. The lands in these districts have (with few exceptions) been patented by the State to the purchasers, and the State consequently relieved of further care and responsibility on account thereof.

Twenty-five of these districts have received the benefits of said Act by virtue of the expenditure of two dollars per acre; and I beg leave to call your attention to the following tables, showing the location and area of such districts, and the amounts refunded to purchasers of lands therein:

No. of District.	County.	Area.	Amount refunded to purchasers.	Remarks.
53	San Joaquin.....	8,738.38	\$2,534.85	
57	San Joaquin.....	3,803.20	3,325.14Venice Island
63	San Joaquin.....	1,920.00	2,071.76	
130	San Joaquin.....	5,000.00	4,411.20Mandeville Island
140	San Joaquin.....	193.50	191.05

The remaining six districts have received the benefit of said Act by virtue of complete reclamation, and are as follows:

No. of District.	County.	Area.	Amount refunded to purchasers.
93	Colusa.....	23,440.00	\$5,631.30
81	Tulare.....	9,200.00	9,684.46
154	Tulare.....	1,120.00	681.35
156	Tulare and Fresno.....	2,360.00	666.29
135	Tulare and Fresno.....	1,194.37	1,222.34
88	Tulare and Fresno.....	12,740.00	16,683.51

The total number of acres embraced in these thirty-one districts being two hundred and fifty-seven thousand one hundred and forty-three and twenty-seven one hundredths (257,143 27/100). The total amount of orders for repayment of purchase money, issued by me to the several County treasurers, is one hundred and seventeen thousand three hundred and sixty-three dollars and ninety-two cents (\$117,363.92), exclusive of the orders for District Numbers One Hundred and One and One Hundred and Sixty-five, of Contra Costa County, which are not yet prepared. This amount being apportioned among the several counties as follows:

Counties.	Amounts.
San Joaquin.....	\$15,247.17
Sacramento.....	21,936.06
Solano.....	3,995.39
Sutter.....	4,831.28
Contra Costa.....	14,609.06
Alameda.....	153.32
Colusa.....	18,731.18
Yolo.....	8,861.91
Tulare.....	14,807.67
Fresno.....	14,850.28
Total.....	\$117,303.02

In addition to these figures, I am creditably informed that District Number Five, of Sutter County, containing about one hundred thousand acres, is ready, and will, during the month of August, present to this office its certificate of the expenditure of two dollars per acre. In this district, the order for the return of purchase money will be the largest yet drawn, and will amount to about thirty-two thousand dollars. Districts "One Hundred and Sixty-four," of Contra Costa County, "Ten," of Solano County, and "Three," of Sacramento County, containing an aggregate of about twenty thousand acres, will also very shortly make like application.

From the foregoing statistics, it will be observed that the reclamation districts situated in the more southern portion of the State, have generally, in the instances cited, completed their work of reclamation, while the districts in the central portion of the State show only an expenditure of a specified sum per acre, and in but one instance (that of District Number Ninety-three, of Colusa County) is the fact of complete reclamation disclosed. This is easily accounted for by natural local causes. The southern portion of the State has no large watercourses intersecting it, and the annual overflow is necessarily very much less and much more easily guarded against than in the territory watered by the Sacramento, American, and Feather Rivers. In many instances, in the more southern counties, an expenditure of the sum of two dollars per acre would be more than adequate to effect a reclamation complete and thorough, while the same amount per acre expended upon a district situated in the valley of the Sacramento, would represent but a small fraction of the necessary cost of reclamation.

TIDE LANDS.

From December fourth, eighteen hundred and seventy-one, to August first, eighteen hundred and seventy-three, there have been tide lands sold as follows:

Counties.	Acres.
Humboldt.....	1,224.46
Marin.....	559.45
Solano.....	3,947.51
Contra Costa.....	54.66
Sonoma.....	718.51
San Luis Obispo.....	11.05
Total.....	6,515.64

At its April term, eighteen hundred and seventy-three, the Supreme Court of this State, in the case of *Kimball v. Macpherson*, decided that the shore of the ocean, between high and low tide, is not subject to sale by the State, under the laws providing for the sale of tide lands.

Quite a number of surveys, embracing lands of the class, were, at the time of said decision, on file in my office, which I had previously declined to approve. In some cases, long, narrow strips were surveyed by the owners of the adjacent high lands, to protect themselves, but often these surveys were made in the interest of parties who did not own any high land in the vicinity, evidently with the view of obtaining control of the water front. After said decision, I rejected all unapproved tide land surveys of this class, and returned them to the County Surveyors from whom they were received.

I am of the opinion that in any future legislation on the subject of tide lands, the ocean beach should be expressly reserved from sale.

COUNTY BOUNDARIES.

On March first, eighteen hundred and seventy-two, the Legislature passed an Act requiring the Surveyor General to survey and establish that portion of the southern boundary of Siskiyou County which forms the northern boundary of Shasta and Lassen Counties. I deputed Wm. Minto, Esq., to make the survey, and issued to him instructions as to the manner of establishing the line. The survey was made, and the map and field notes of the same were duly returned to this office, and approved by me on July thirteenth, eighteen hundred and seventy-two. This is the only county boundary line established by authority of this office during my term.

GENERAL OFFICE BUSINESS.

During my term, the business of this office has been unusually large. The large number of approvals made, and the many contests that have been determined, have necessarily been followed by a correspondingly large issuance of title. The delinquent list for the year eighteen hundred and seventy-two, occupied, in its preparation, much time, and the most careful attention, from the fact that my predecessor had not prepared

any complete list during the last two years of his administration. The tract books of the register's department, owing to their defective construction, and to long and constant use, had become much disfigured and mutilated. These tract books consist of eleven large volumes of written matter; and their contents, exhibiting, as they do, the title to all the lands sold by the State, are of incalculable value. To preserve these records, I have, therefore, caused new and more substantial books to be prepared, and have commenced the labor of rewriting them in full. The Act of March sixteenth, eighteen hundred and seventy-two (heretofore referred to in this report), concerning the reclamation of swamp and overflowed lands, has caused the issue of a very large number of patents, as well as protracted and exhaustive investigation as to the organization of each reclamation district seeking the benefit of said Act, and careful computation of the amounts paid in each district on account of the purchase of lands. I have also received over ten thousand business letters and communication, relating to transactions had in my office, and it being my policy to furnish to every inquirer all information within my power to give, these letters and communications have all been answered in full and with dispatch. The pressure occasioned by these and various other causes has necessitated the continuous employment of a large clerical force in both departments of my office; and to prevent an accumulation of business, with its consequent confusion, and annoyance to parties having business, to transact relative to State lands, I have compelled to employ much extra assistance. I have, during my term of office, and prior to August first, eighteen hundred and seventy-three, received as fees, the sum of twenty-eight thousand five hundred and ninety-three dollars and twenty-eight cents. Of this amount I have paid to the Secretary of State his fees upon patents, amounting to two thousand eight hundred and ninety-eight dollars. I have also paid out for maps, records, documents, and extra assistance, the sum of eleven thousand and forty-nine dollars and eighty-four cents. Leaving a balance on hand of fourteen thousand six hundred and forty-five dollars and forty-four cents, which amount I have paid into the State Treasury.

RESOURCES OF CALIFORNIA.

In conclusion of this report, I present for your consideration a table of statistics, compiled by me from the reports of the Assessors of the several counties, exhibiting the industries and productions of California. These statistics are not fully complete, for the reason that I have not as yet received reports for eighteen hundred and seventy-three from the Counties of Mariposa, Mendocino, Tehama, and the new County of Ventura, which fact, while it may materially decrease the totals of the State at large, will not materially affect the comparative exhibits as between counties. These reports of County Assessors are the only data provided as the basis of my report in this collection, and perhaps no other system would be more adaptable to the collection of such information. Still, I am positively of the opinion that the showing made in this report, and as previously made in the reports of my predecessors, does not exhibit results which do full justice to the claims of California. The details of these statistics being furnished by property owners to the Assessor of his county, are too generally placed at the lowest possible estimate, and given with the greatest reluctance, fearing their use as a basis of assessment for purposes of taxation.

The resources of the State of California are perhaps more varied than those of any other of the States of the Union. Its very large area, its geographical position, and the high elevations of its mountain ranges, bestow upon it climactic advantages of the highest order. In the extreme northern portion of the State the temperature is never so low as to necessitate the precautions and inconveniences to which the Middle States of the Eastern Slope are subjected; neither is the most southern portion of so high a temperature as to propagate either the malaria of a tropical country or the lassitude and indolence of its inhabitants. Ever swept through her whole length and breadth by moderate winds, fresh from the bosom of the Pacific Ocean, the extremes of heat and cold are unknown to California.

The soil of California is as prolific in its character as it is varied in its adaptations, producing with equal facility the vines of continental Europe, the hardier cereals of northern American, and the luxuriant fruits and flowers incident to the tropics. Her mountain hills and streams are the depositories of gold, silver, and valuable minerals, in quantities that have attracted the attention of the civilized world. Her inhabitants are the representatives of every nation of the face of the globe; an enterprising, active people, that have, in a few years, erected a prosperous State upon the most remote borders of civilization.

With these natural advantages of soil, climate, and mineral deposit, no uncertainty as to the future of California can reasonable be entertained. Her population is steadily increasing; her resources are each year being more completely developed; her immense area offers every inducement to immigration, and, judged by the American standard of progress, she is destined not only to maintain her past proud position amongst her sister States, but to attain a preeminence that shall be as enviable as it is deserved.

As shown by the statistics, thirteen million eight hundred and forty-three thousand two hundred and forty bushels of wheat were produced during the year A. D. eighteen hundred and seventy-one, and twenty six million eighty-nine thousand six hundred and seventy-seven bushels during the year A. D. eighteen hundred and seventy-two. This result, taken as correct, compares very favorably with the production of other States, while at the same time a comparison of the number of acres cultivated with the yield in bushels, does not correctly show the average per acre, either as a general average, or as applied to any individual county, for the reason that a very considerable portion of this crop is in California diverted from the uses to which in other localities it is invariably devoted; a very large amount thereof being cut for hay, and much never cut at all, but used on the ground from which it is raised, for fattening the hogs. These causes, together with the low figures usually furnished to the Assessors, will warrant that the average yield per acre is very much larger than can be exhibited by this report. The Counties of Sonoma, Santa Clara, Monterey, Butte, and Stanislaus, stand at the head of the grain-producing counties for the year eighteen hundred and seventy-one; and the Counties of Stanislaus, Colusa, San Joaquin, Monterey, and Contra Costa, for the year eighteen hundred and seventy-two. Together with this yield of wheat, a large quantity of barley has been raised, which, in this State, is extensively used as a substitute for the corn and oats of the Eastern States. The wheat of California has attained a world-wide celebrity; it commands always the highest market price, and, as a crop, it is highly remunerative. Much of it is raised for the markets of Europe, and the shipping

advantages and yearly increasing foreign demand, is causing this crop each year to become more and more the leading interest of the Pacific Coast. Grain of many other descriptions is raised for home consumption, and the supply of the several varieties is limited only by the demand.

The fruit products of this State are, perhaps, of greater variety than those exhibited by any other branch of agriculture, and, in their variety, are more characteristic of the peculiarities of California climate and soil, than any of the many evidences that have yet attracted public attention. All the fruits of the temperate zone are produced in profusion, and attain an unusual size and flavor. In the more southern counties many fruits incident to tropical climates are produced with profit and in abundance. Oranges, lemons, figs, pomegranates, limes, and olives, are yearly figuring more extensively among California productions. The fruits of this State are demanded by the epicures of the East, and are shipped in large quantities to all parts of the Union.

The mountains of the Coast Range, and of the Sierra Nevadas, are covered with almost virgin forests, embracing valuable timber of endless variety, the Coast Range producing an unlimited amount of the redwood timber peculiar to that locality, and so truly valuable for its self-preserving qualities, as well as the laurel now so extensively used for various ornamental purposes. The large growth of redwood timber, as well as laurel, is principally confined to the Counties of Humboldt, Mendocino, San Mateo, and Santa Cruz. Millions upon millions of feet of redwood lumber are each year cut in these counties for the supply of home demand, and for shipment to South American and Mexican ports, as well as to the islands of the Pacific Ocean. The pine, spruce, and fir of the Sierra Nevada range, supply the large demand for home consumption, as well as for the large extent of untimbered territory lying along our eastern boundary.

Cattle and sheep raising have become thoroughly identified with the interests of California. The even temperatures of climate at once does away with the most serious obstacles incident to this branch of industry in the other northern and middle States. The Winters are of such a nature, that neither cattle nor sheep require protection from the inclemency of the weather; good feed is found during all the months of the year; even in the driest periods of our long Summers, the grass, that to all appearances is withered and unfit for consumption, contains all the nutritious qualities of well-cured hay, while upon the first rains of Winter the pasture is at once covered with grass to supply the needs of the succeeding year. Much attention has been of late paid to the improvement of the breeds of cattle, and whereas, but a few years since the country was filled with cattle of inferior size and quality, driven here in times of high prices from the plains of Texas and Mexico, it has now become the home of the descendants of the most valued domestic and imported breeds. The same follows with sheep and goats. The wool clip is annually becoming larger and of a better quality. Sheep in California are sheared twice a year, and the product at all times commands remunerative prices. Range for these animals is plenty, and sheep wool growing in California has given it no small share of its celebrity. This may principally be attributed to the same climactic causes that offer such inducements in the raising of cattle. By sheep raisers here, it is calculated that the flock will more than double itself in number each year, and that he returns from the sales of wool will be in excess of all expenses incurred, thus leaving an annual profit of the total increase in number, amounting virtually to over one hundred per cent upon the amount invested in the purchase of the flock. The principal cattle

raising counties of the State are Monterey, San Luis Obispo, Fresno, and Merced. The County of Marin far exceeding all other localities in the products of the dairy.

Wine making, as a general industry, is steadily pushing forward its claims to attention. Each year proves the climate and soil of California to be better adapted to the culture of the grape. Vines grow upon the hills, and in the valleys, bearing an abundance of fruit of every conceivable variety. California wines are in constant demand in eastern markets, and are yearly advancing in universal favor. The principal wine-producing counties are Los Angeles, Sonoma, Napa, Sacramento, and El Dorado.

Humboldt County, in the year A. D. eighteen hundred and seventy-two, produced twenty-one thousand four hundred and eighty tones of potatoes. San Mateo and Sonoma Counties come next; San Mateo raising during said year, eight thousand two hundred an forty-two tons, and Sonoma, seven thousand eight hundred and forth tons.

The deductions that I have drawn from the reports of statistics are necessarily few and inadequate, but a careful examination of the figures presented in the following tables, will present information of a valuable order, and establish results highly eulogistic of the capabilities of our State for all the general purposes of agriculture, stock raising, and the hundred other branches of industry that shall tend to make her a great State among great States. The inducements held out by her for immigration from the over-crowded countries of Europe, and of the Eastern States, are many and of great force. Here there is room for all. To the thrifty husbandman, looking about him for some spot where he with his small means may build for himself a home, and make provision for his declining years, our State extends a welcome most hearty. To the wealthy, who seek a land where they may fully enjoy the fruits of their former labors, we offer a climate unsurpassed; scenery, the most varied and romantic; society, both cultivated and refined. To the manufacturer, we say that every stream within our State which flows from the mountain ranges to the Pacific Ocean, abounds with water powers, and every requirement for the enterprises in which he may desire to engage. Lands can be obtained at reasonable prices, both from the United States, the State, and from private parties. The extent of territory within the borders of California, gives promise that there is room for all, and the State of California cannot, and will not, in the pursuance of its past and present policy, fail to extend to every new comer a welcome as cordial as it is sincere, and a protection as complete as it is impartial.

STATISTICS.

Several of the County Assessors not having reported to me in due season, I have been compelled to delay the submission of this report until this day (September twenty-fifth, eighteen hundred and seventy-three), and it will be observed that a portion of the letters accompanying the reports of Assessors, bear date subsequent to August first. This delay on my part has been imperative, as the reports of the Assessor form the basis of the report which I am required to make, under section four hundred and eighty-three of the Political Code.

STATISTICAL TABLES FOR 1872.

TABLE OF STATISTICS.

Industrial and other statistical information for the year eighteen hundred and seventy-two, as reported to the Surveyor General by the several County Assessors, embracing the entire State.

ADDITIONAL STATISTICS.

[The statistical reports from Mariposa, Mendocino, Tehama, and Ventura Counties were not received until after the Surveyor General's Report was forwarded to the Governor.]

ADDITIONAL STATISTICS
FROM
REPORTS OF COUNTY ASSESSORS.

STATISTICS,

January first, eighteen hundred and seventy-two, to January first, eighteen hundred and seventy-three, compiled from the books of the Assessor of Mariposa County.

AGRICULTURAL PRODUCTS.	Number.
Land inclosed in eighteen hundred and seventy-two, acres.....	2,350
Land cultivated in eighteen hundred and seventy-two, acres.....	6,500
Wheat, acres.....	730
Wheat, bushels.....	5,000
Barley, acres.....	2,000
Barley, bushels.....	6,000
Oats, acres.....	3,300
Oats, bushels.....	-
Rye, acres.....	30
Rye, bushels.....	-
Corn, acres.....	40
Corn, bushels.....	500
Buckwheat, acres.....	-
Buckwheat, bushels.....	-
Peas, acres.....	-
Peas, bushels.....	-
Peanuts, acres.....	-
Peanuts, pounds.....	-
Beans, acres.....	5
Beans, bushels.....	100
Castor beans, acres.....	-
Castor beans, pounds.....	-
Potatoes, acres.....	70
Potatoes, tons.....	200
Sweet potatoes, acres.....	-
Sweet potatoes, tons.....	-
Onions, acres.....	10

AGRICULTURAL PRODUCTS – Continued.	Number.
Onions, bushels.....	700
Hay, acres.....	5,000
Hay, tons.....	4,000
Flax, acres.....	-
Flax, pounds.....	-
Hops, acres.....	-
Hops, pounds.....	-
Tobacco, acres.....	-
Tobacco, pounds.....	-
Cotton, acres.....	-
Cotton, pounds.....	-
Sugar beets, acres.....	-
Sugar beets, tons.....	-
Butter, pounds.....	7,000
Cheese, pounds.....	500
Wool, pounds.....	98,000
Honey, pounds.....	-

FRUIT TREES AND VINES.	Number.
Apple trees.....	5,000
Peach trees.....	7,000
Pear trees.....	900
Plum trees.....	500
Cherry trees.....	200
Nectarine trees.....	90
Quince trees.....	75
Apricot trees.....	350
Fig trees.....	300
Lemon trees.....	-
Orange trees.....	-
Olive trees.....	-
Prune trees.....	-
Mulberry trees.....	175
Almond trees.....	25
Walnut trees.....	40
Grapevines.....	250,000
Wine, gallons.....	16,000
Brandy, gallons.....	1,000
Distilleries.....	1

FRUIT TREES AND VINES – Continued.	Number.
Gallons.....	500
Breweries.....	2
Gallons.....	8,000

LIVE STOCK.	Number.
Horses.....	1,662
Mules.....	230
Asses.....	53
Total.....	1,945
Cows (two years old and over).....	2,391
Calves (under two years old).....	1,886
Beef cattle (steers two years old and over).....	458
Oxen.....	92
Total number of cattle.....	4,827
Sheep.....	44,663
Cashmere and Angora goats.....	49
Hogs (one year old and over).....	2,489
Hives of bees.....	4

IMPROVEMENTS.	Number.
Grist mills.....	-
Steam power.....	-
Run of stone.....	-
Water power.....	-
Run of stone.....	-
Barrels of flour made.....	-
Bushels of corn ground.....	-
Sawmills.....	4
Steam power.....	4
Water power.....	-

IMPROVEMENTS – Continued.	Number.
Lumber sawed, feet.....	1,500,000
Shingles made.....	150,000
Quartz mills.....	33
Tons of quartz crushed.....	7,000
Mining ditches.....	5
Miles in length.....	25
Average amount of water used daily, inches.....	-
Irrigating ditches.....	-
Acres irrigated (except small garden spots).....	-
Woolen mills.....	-
Pounds of wool used.....	-
Cotton mills.....	-
Pounds of cotton used.....	-
Tons of coal mined.....	-

MISCELLANEOUS.	Number.	Value.
Acres of wheat sown in 1873.....	500	-
Acres of barley sown in 1873.....	1,600	-
Acres of potatoes planted in 1873.....	50	-
Acres of oats sown in 1873.....	250	-
Assessed value of real estate in 1873.....	-	\$445,780 00
Assessed value of improvements on same.....	-	375,823 00
Assessed value of personal property in 1873.....	-	550,367 00
Estimated total population in 1873.....	4,000	-
Registered voters in 1873.....	1,421	-
Poll tax collected in 1872.....	961	-

I hereby certify that the above statement is true and correct.

WM. F. COFFMAN,
Assessor Mariposa County .

STATISTICS,

January first, eighteen hundred and seventy-two, to January first, eighteen hundred and seventy-three, compiled from the books of the Assessor of Mendocino County.

AGRICULTURAL PRODUCTS.	Number.
Land inclosed in 1872, acres.....	76,454
Land cultivated in 1872, acres.....	18,747

J. L. JACKMAN,
Assessor Tehama County.

STATISTICS,

January first, eighteen hundred and seventy-two, to January first, eighteen hundred and seventy-three, compiled from the books of the Assessor of Ventura County.

SAN BUENAVENTURA, September 24th, 1873.

Hon. ROBERT GARDNER,
Surveyor General:

DEAR SIR: Having labored under the impression that it was the duty of our Board of Supervisors to make and order for taking statistics, and as they did not do so, I began the assessment, an, in fact, completed it, without complying with section four thousand and eighty-one, and then had to make a statistical tour throughout the county, which has been the cause of my great delay.

As Ventura County was only organized about the first of March, some of the items in my report I could not fill.

Hoping you will pardon my delay, I am, very respectfully, your obedient servant,

JOHN Z. BARNETT,
Assessor Ventura County.

JOHN Z. BARNETT,
Assessor Ventura County.

REPORTS OF COUNTY ASSESSORS.

REPORTS OF COUNTY ASSESSORS.

AMADOR COUNTY.

J. W. SURFACE.....County Assessor.

JACKSON, July 6th, 1872.

Hon. ROB'T GARDNER,
Surveyor General:

SIR: In conformity to the law, I herewith submit my annual and statistical report for the year eighteen hundred and seventy-one.

The assessed value of property is much larger than that of any previous year, and an increase over last year's assessment of over three million of dollars.

The agricultural portion of the county is increasing in value, from the fact that crops have yielded largely for some years, and at no time in the history of this county have the crops been any better than at present.

The quartz mining interest is in a very prosperous condition, several of the mines paying large dividends, and a number are being actively prospected.

Considerable interest is still manifested on the part of our citizens in the matter of preemption. A great portion of our land is now being settled by a good, honest, hard-working class of settlers, which will tend to increase, materially, the taxable property of the county.

Owing to the great demand, and the increased value of wool, a number of stock raisers (cattle), are selling out their cows and horses, and investing the proceeds in sheep, thousands of which are now driven into the foothills of the Sierras for the Summer pasturage.

Our wine interest is growing every year in importance. Almost every variety is now made, and we find a ready sale for all that we can produce.

The production of corn is steadily on the increase. Lands that before the floods of eighteen hundred and sixty-two and eighteen hundred and sixty-three would raise no corn, now yield a high average to the acre.

I think we have cause to rejoice, for at no time during the last ten years has our county been in so prosperous a condition.

Very respectfully, your obedient servant,

J. W. SURFACE,
Assessor Amador County.

AMADOR COUNTY.

J. W. SURFACE.....County Assessor.

JACKSON, August, 1873.

Hon. R. GARDNER,
Surveyor General:

SIR: Herewith you will find my statistical report of Amador County. I have tried to make it correct in every particular.

You will take notice that several thousand acres have been inclosed during the past year, all of which is mountain land, fenced, either for grazing or for the wood and timber growing thereon. Owing to the very dry season, agriculture has not been very remunerative in the mountain district, but the valleys have yielded an average crop of hay and grain.

The Arroyo Seco Rancho, which embraces most of the best agricultural land in the county, has been recently purchased by a company who are displaying considerable energy. Since their purchase they have sold several thousand acres of land in lone and Jackson Valleys, and nearly all the town lots in lone City, at reasonable prices, and to a class of settlers who intend to make for themselves permanent homes. The owners of the grant are, themselves, paying particular attention to farming. They keep constantly employed a force of about sixty men, and have sown about seven hundred and fifty acres of alfalfa this year, which has done remarkable well, and will be a source of considerable profit, particularly as they are grazing about eight thousand head of sheep, and about seven hundred head of cattle.

This year the hop business is attracting more attention than at any former time. For several years the price has been very remunerative, and the soil of our valleys, being well adapted to its growth, I have no doubt but in a few years it can be made a source of considerable income.

The population of the county is not on the increase at present, from the fact that placer mining is looked on here as one of the things of the past, and a number of persons who had been engaged in that business, are seeking homes in the valleys and large cities.

It cannot be denied that this county is one of the riches in the State, so far as quartz interests are concerned, and though some mines are paying large dividends, others are languishing for want of capital to work them.

Our coal beds are also supposed to be very extensive, and considerable prospecting is now being done, with every prospect of success. One mine, near lone City, has furnished the quartz mills of Sutter Creek, Amador City, and Oneida Valley, nearly six thousand tons, at a cost to the mill owners of about twenty-four thousand dollars, or four dollars per ton.

There are two copper mines in the county, which are paying and permanent. The Cosumnes Mine, situated near Michigan Bar, keeps forty men employed, and reduces the ore at the mine by smelting, making it yield about forty per cent.

The Newton Mine, situated three miles east of Lone City, on the Jackson Road, is in a very flourishing condition. The company has taken down all the old machinery and put up new. The ore is worked by what is known as the Leaching process, and reduced to ninety per cent. This mine keeps twenty-five men employed.

Taken all together, our county is in a very healthy condition.

Yours respectfully,

J. W. SURFACE, Assessor.

BUTTE COUNTY.

I. C. WERTSBAUGHER.....County Assessor.

OROVILLE, September 12th, 1872.

Hon. ROB'T. GARDNER,
Surveyor General:

DEAR SIR: You will herewith find statistical report of Butte County, which, I hope, will meet with your approval. The statistics required of A. D. eighteen hundred and seventy-one I cannot give, as I cannot find anything in regard to same among the archives of this office.

The statistics herewith are correct – more correct than any former report from this county. If you perceive anything that does not meet with your approval, please notify me, and oblige,

Yours truly,

I. C. WERTSBAUGHER
Assessor of Butte County.

Per WARDWELL.

HUMBOLDT COUNTY.

L. TOWER.....County Assessor.

EUREKA, September 10th, 1872.

Hon. ROB'T. GARDNER,
Surveyor General:

DEAR SIR: in compliance with the law, I herewith forward to you the required statistical report.

If is the best we could do, and is, in the main, correct. But I defy any man to make a perfect one. There are so few people who keep anything like accurate records of their own business, that these reports, at best, can be only approximations. If Assessors would impress upon the people the importance of being prepared for them, they could be rendered more accurate and proportionally more valuable.

You will please forward the required certificate, and oblige,

Very truly yours,

L. TOWER,
Assessor of Humboldt County.

MERCED COUNTY.

H. F. BLACKWELL.....County Assessor.

SNELLING, November 14th, 1872.

Hon. ROBERT GARDNER,
Surveyor General:

SIR: I herewith present the annual report from this office, after using all available means to make my figures as complete and correct as possible.

In the more important items they are correct; the less important being an approximation, which only can be given, as many taxpayers give in their lists without a thought to these minor statistics.

In agriculture and sheep raising this county is improving rapidly; wheat and barley being the principal cereals. There is, however, a large portion of our lands well adapted to various products. Cotton is attracting considerable attention now, and no longer any doubt rests upon the mind of the most skeptical as to its successful cultivation in this valley. As seen from the report, there is about six hundred acres in cultivation in this county this year, which will give an average yield of a bale to two acres – far exceeding the average yield of the most choice sections of the Southern States.

A few of our farmers are cultivating a variety of the most valuable forest trees, and some are preparing to beautify and improve our public highways by planting trees

in accordance with an Act of Legislature of March thirteenth, eighteen hundred and sixty-eight.

The Pacific Railroad has been completed through out county since the last report, and already we have realized incalculable advantages and benefits from its construction. The Town of Merced, located near the center of the county, on the railroad, surrounded by the best agricultural lands, has been built within the past six months, and now contains about five hundred souls and eighty buildings – most of which buildings are good and substantial – thereby showing the enterprise of our people and their confidence in the continued productiveness of our soil.

The county, comparatively speaking, is in its infancy – only about one fourth of the land in cultivation. We has many advantages not yet fully appreciated, which time alone will manifest and develop.

Since the last report, the Merced Falls Woolen manufacturing Company’s mill has burned, which is a heavy loss to our county and to this portion of the State. The water power is sufficient, nine months of the year, to drive every spindle in the State. It is owned, jointly, by said company and Nelson & Son. There is sufficient water, at lowest stage, to run a grist mill and four set woolen mill. The dam was built by Mr. Nelson, in eighteen hundred and fifty-four, and has not cost an average of one hundred dollars per year to keep in repair – a good investment for capitalists. It is situated six miles above Snelling, on the Merced River, and twenty-two miles from the railroad Town of Merced.

It is due the Assessor, in consequence of his delay of report, to offer as his excuse the illness of his wife and extreme and continued illness of his mother, which called him away from the office.

H. F. BLACKWELL,
Assessor of Merced County.

By JNO. A. KENDRICK, Deputy.

MONTEREY COUNTY.

W. V. McGARVEY.....County Assessor.

SALINAS CITY, August 10th, 1873.

Hon. ROBERT GARDNER,
Surveyor General:

SIR: According to law, I hereby forward to you my statistical report for the year eighteen hundred and seventy-two.

The number of acres of land returned in the statistical table as cultivated in eithen hundred and seventy-two, may not be quite correct, as the copy of report to

your office of eighteen hundred and seventy-two, which I kept for reference, was misplaced during the removal of the county records, etc., from Monterey to Salinas City, last Winter, and I was compelled to refer to the original Assessors; blanks, which in some instances were partly destroyed, but I am not far from the mark.

Our county is in a prosperous condition, considerable more land has been sown this year than last, and our valleys are filling up with good practical farmers.

The yield of wheat for the year eighteen hundred and seventy-three is not large, but the quality is very good; the yield of barley is somewhat heavier; most of all the flax sown in this county is cut for seed, and I have failed to report correctly upon that product.

Hops, heretofore, have yielded quite well, and the quality good; but from the present appearances that crop, for the year eighteen hundred and seventy-three, will be very light.

Tobacco has been planted quite extensively in the eastern portion of the county, on the San Felipe Ranch, by Messrs. Kulp, Parrott, and others, the yield is large, and I learn the quality is very good; said to be equal to the best Havana tobacco. The company I learn are erecting large and commodious buildings, and anticipate going into the business extensively.

We have seventy-one miles of railroad in our county, which has developed our county, increased our population and property, and has added several millions of dollars to the assessment rolls of this county.

The western branch or main trunk of the Southern Pacific Railroad, which runs through the Salinas Valley now, as far as the ex-Mission of Soledad, has opened up a large field to the plow, that heretofore has been used entirely for grazing purposes.

The Town of Salinas has grown from a country cross roads to quite a city, and it is now a very thriving place, and many very substantial buildings are in course of construction; also, we have a bank in expectancy; it is in good hands and can't fail.

The eastern branch of the Southern Pacific Railroad runs through some of the finest land in the State, and has opened up much good country near the Town of Hollister, which is a very prosperous town. The dairy product is shipped away as fast as they make it, which accounts for the small amount returned in the statistical table. The wool I generally assess with the sheep; or, in other words, treat the wool as a growing crop, unless it is wool of the year previous, or purchased with capital that has not previously been assessed for the year.

The dairy business has been very prosperous in the county for the past year, and I think we have some as fine and well regulated dairies as there are in the State. We have also quite an addition and improvement to our breed of cattle and sheep during the past year. Mr. J. D. Carr has imported from Kentucky, some very fine cattle during this Summer, which is said to compare with, if not excel, any cattle in the State.

The whale fisheries on the Bay of Monterey have been quite successful this year.

The public lands of this county have been settled upon everywhere, and almost every available spot has been taken up by preemption or entered under the State laws.

Your obedient servant,

W. V. McGARVEY,

SAN FRANCISCO COUNTY.

LEVI ROSNER.....County Assessor.

SAN FRANCISCO, August 1st, 1872.

Hon. ROBERT GARDNER,
Surveyor General:

SIR: Annexed please find my annual report of statistics of the manufacturing and mechanical industries of the City and County of San Francisco for the year eighteen hundred and seventy-two.

In compiling this report I have experienced great difficulty, owing to the reluctance of manufactures to give data concerning the result and prospect of their business, thus rendering this report necessarily incomplete.

LEVI ROSNER,
Assessor of the City and County of San Francisco.

Cigars made annually.....	50,085,000
Cigarettes made annually.....	140,000
Aggregate value of cigars, per thousand.....	\$40

Chemical Works.

Works.....	4
Men employed.....	26
Nitrate of soda used, tons.....	260
Sulphur consumed, tons.....	475
Sulphur and nitric acid, tons.....	680
Capacity of work per day (sulphuric acid), tons.....	12
Capacity of work per day (nitric acid), tons.....	3
Sulphate of copper made, tons.....	260

Coffee and Spice Mills.

Mills.....	7
Men employed.....	60
Coffee ground and roasted, yearly, pounds.....	1,425,000
Chocolate made, pounds.....	90,000
Spices ground, pounds.....	170,000
Horse power of steam engines.....	77
Aggregate value of manufactures.....	\$410,000

Cordage and Rope Manufactory.

Works.....	1
Men employed.....	75
Hemp ropes manufactured, tons.....	1,500
Horse power of steam engines.....	150
Aggregate value of manufactures.....	\$450,000

Distilleries.

Works.....	3
Men employed (by two).....	45
Proof gallons of liquor made, yearly.....	700,500
Average horse power of steam engines.....	150

Dry Docks, Floating.

Ways.....	2
Men employed.....	15
Capacity of docks, tons.....	2,600

Stone Dry Dock.

Dock.....	1
Length of excavation in solid rock, feet.....	450
Width at top, feet.....	120
Depth, feet.....	30
Width at entrance, feet.....	90
Capacity at length, feet.....	425
Capacity for drawing, feet.....	22
Capacity of pumps for cleaning, per hour, cubic feet.....	325,368
Tubular boilers, of four-inch tubes.....	4
Dimensions of each boiler, diameter, inches.....	25
Dimensions of each boiler, length, feet.....	16
Fire surface of boilers, square feet.....	3,800
Men employed.....	25
Total cost of works.....	\$625,000

Flouring Mills.

Mills.....	8
Men employed.....	127
Flour made, barrels.....	479,000
Hominy, tons.....	510
Buckwheat and rye flour, tons.....	140
Feed barley, tons.....	156,000
Oatmeal and groats, tons.....	460
Pearl barley, tons.....	60
Cornmeal and farina, tons.....	70
Run of stones.....	48
Horse power of engines.....	730

Furniture Manufactories.

Manufactories.....	12
Men employed.....	250
Lumber used, feet.....	5,400,000
Aggregate value of manufactures.....	\$317,000

Foundries and Iron Works.

Works.....	20
Men employed.....	990
Pig iron used, tons.....	7,000
Bar iron used, tons.....	520
Sheet and boiler iron used, tons.....	800
Rivets used, tons.....	70

Horse power of engines.....	460
-----------------------------	-----

Fur Manufactories.

Manufactories.....	4
Persons employed.....	45
Aggregate value of manufactures.....	\$275,000

Glass Works.

Works.....	2
Men employed.....	85
Furnaces.....	2
Pots.....	13
Aggregate value of manufactures.....	\$175,000

Gold and Silver Refineries.

Refineries – no statement.

Glue Manufactory.

Factory.....	1
Men employed.....	10
Glue made, tons.....	500
Neat's foot oil made, gallons.....	5,000
Curled hair made, pounds.....	20,000
Capacity for glue, daily, tons.....	30
Capacity for oil, daily, gallons.....	200

Glass Cutting and Staining Works.

Works.....	2
Men employed.....	13
Aggregate value of manufactures.....	\$26,000

Gas Meter Manufactory.

Factory.....	1
Men employed.....	5
Aggregate value of manufactures.....	\$4,000

Glove Manufactories.

Factories.....	2
Persons employed.....	40

Aggregate value of manufactures.....	\$42,000
--------------------------------------	----------

Hat and Cap Manufactories.

Factories.....	10
Men and women employed.....	35
Aggregate value of manufactures.....	\$75,000

Horse Collar Manufactories.

Factories.....	2
Men employed.....	15
Hose made, feet.....	15,000
Belting made, feet.....	160,000
Sides of leather and hides used.....	47,000
Aggregate value of manufactures.....	\$47,000

Jewelry Manufactory.

Factory.....	1
Men employed.....	40
Aggregate value of manufactures.....	\$125,000

Ink Manufactory.

Factory.....	1
Men employed.....	6
Ink made, gallons.....	6,000
Aggregate value of manufactures.....	\$10,000

Lead and Shot Works.

Works.....	2
Men employed.....	74
Lead manufactured, tons.....	9,000
Shot manufactured, tons.....	300
Aggregate value of manufactures.....	\$1,515,000
Horse power of engines – not reported.	

Last Manufactories.

Works.....	2
Men employed.....	15
Horse power of engines.....	10
Aggregate value of manufactures.....	\$25,000

Macaroni Manufactories.

Works.....	2
Men employed.....	22
Macaroni and pastry put up, boxes.....	38,000
Macaroni and wheat used, sacks.....	8,000
Horse power of engines.....	27
Capacity of work, boxes.....	65,000
Aggregate value of manufactures.....	\$77,000

Match Manufactories.

Works.....	5
Men employed.....	40
Matches made, gross.....	100,000

Malt Houses.

Works.....	7
Men employed.....	28
Grain malted, pounds.....	9,071,000
Malt made, pounds.....	7,256,450
Horse power of engines.....	23

Mirror and Silvering Work.

Works.....	1
Men employed.....	7
Silvering tables.....	5
Value of manufacture.....	\$22,000

Oakum Manufactory.

Works.....	1
Men employed.....	6
Bales manufactured annually.....	3,000
Engine horse power.....	10
Value of manufacture.....	\$15,000

Organ Builders.

Works.....	1
(No report furnished.)	

Pickle and Fruit Preserving Works.

Works.....	3
Men employed (by two works).....	310
Pickles put up, kegs (by two works).....	25,000
Fruits and meats, dozens, (by two works).....	169,000

Planing Mills and Sash Manufactories.

Works.....	8
Men employed.....	388
Lumber consumed per year, feet.....	7,950,000
Horse power engines.....	391
Amount of sales yearly.....	\$320,000

Plaster of Paris Manufactories.

Works.....	1
Men employed.....	5
Engine horse power.....	10
Aggregate value of manufactures.....	\$12,000

Pyrotechnic Works.

Works.....	1
Men employed.....	5
Value of manufactures.....	\$12,000

Powder Works.

Works.....	1
Men employed.....	12
Giant powder made yearly, pounds.....	120,000
Value of manufactures.....	\$120,000

Rolling Mill.

Mill.....	1
Men employed.....	115
Railroad iron produced, tons.....	750
Coal used, tons.....	3,000
Capacity of production, tons.....	9,000
Horse power of engine.....	300

Saw and Saw Teeth Manufactories.

Factories.....	2
Men employed.....	40

Steel used annually, tons.....	50
Actual value of manufactures.....	\$75,000
Horse power of engines.....	25
Capacity of works, value.....	\$110,000

Salt Mills.

Mills.....	4
Men employed.....	54
Domestic salt ground, tons.....	11,200
Foreign salt ground, tons.....	6,100

Silk Manufactory.

Factory.....	1
Men employed.....	4
Women.....	74
Capacity of manufacture.....	\$150,000
Engine horse power.....	15
Value of manufacture.....	\$75,000

Silver Ware Manufactories.

Factories.....	3
Men employed.....	49
Value of manufactures.....	\$155,000

Sugar Refineries.

Refineries.....	3
Men employed.....	325
Raw sugar used, pounds.....	40,970,500
Refined sugar made.....	31,750,000
Molasses refined, gallons.....	34,416
Syrup made, gallons.....	3,290,600
Horse power of engines.....	530
Average value of manufactures.....	\$4,500,000

Soap Manufactories.

Factories.....	17
Men employed.....	70
Soap made, pounds.....	5,750,500
Washing powder made, pounds.....	1,000,000
Value of manufactures.....	\$120,000

Shirt Manufactories.

Factories.....	3
Men employed.....	60
Value of manufactures.....	\$18,000

Steam Marble Works.

Works.....	3
Men employed.....	72
Horse power of engines.....	80
Run of saws.....	5

Tub, Pail, and Woodenware Manufactories.

Factories.....	2
Men employed.....	70
Lumber used, sugar pine, cedar, maple, cords.....	4,600
Pails made, dozen.....	8,800
Tubs (nests of three) made.....	5,000
Tubs, (nests of eight) made.....	700
Tubs, single.....	18,000
Washboards (wood), dozen.....	5,000
Broom handles made.....	500,000
Hand hay racks, dozen.....	400
Curtain rollers.....	30,000
Sieves, zinc and plated and wire, dozen.....	14,000
Barrel and half barrel covers, dozen.....	420
Fish kettles.....	3,200
Butter firkins.....	1,000
Salt boxes, dozen.....	500
Butter moulds, dozen.....	300
Cheese safes, dozen.....	200
Peach baskets, dozen.....	400
Churns and cylinders, (single).....	175
Horse power of engines.....	150

Trunk and Valise Manufactories.

Factories.....	8
Men employed.....	105
Value of manufactures.....	\$150,000

Tool and File Manufactories.

Factories.....	7
----------------	---

Men employed.....	51
Value of manufactures.....	\$47,600

Tanneries.

Tanneries.....	26
Hides tanned, of all kinds.....	75,000
Bark used, cords.....	3,000
Horse power of engine.....	76
Value of bark.....	\$45,000
Aggregate value of manufactures.....	\$575,000

Telegraph Instrument Manufactory.

Factory.....	1
Men employed.....	5
Value of manufactures.....	\$15,000

Type Foundries.

Foundries.....	3
Persons employed.....	60
Value of manufactures.....	\$80,000

Vinegar Works.

Works.....	7
Men employed.....	40
Vinegar made, gallons.....	450,000
Value of manufactures.....	\$80,000

Wire Works Manufactories.

Manufactories.....	3
Men employed.....	26
Value of manufactures.....	\$27,000

Whale Oil Works.

Works.....	2
Men employed.....	8
Oil refined, gallons.....	24,800
Presses for spermaceti.....	4
Bleachers and strainers.....	4

Woolen Mills.

Mills.....	2
Men and women employed.....	840
Card sets.....	45
Power looms.....	100
Frames for knitting underwear.....	20
Frames for knitting hosiery.....	50
Spindles.....	20,000
Blankets made.....	150,000
Cloth and tweeds made, yards.....	165,000
Knit flannel shirts and drawers, dozen.....	400
Hosiery, dozen.....	750
Flannel made, yards.....	900,000
Wool used, pounds.....	3,700,000
<i>Yeast Powder Works.</i>	
Works.....	1
Men employed.....	15
Yeast powder made, gross.....	260
Cream of tartar, pounds.....	11,000
Soda, pounds.....	7,000
Aggregate value of manufactures.....	\$8,000

The quantity of agricultural products of this county being purely nominal, they are not, as you perceive, embraced in this report.

Assessed value of real estate and improvements, one hundred and eighty-seven million two hundred and eighty-nine thousand three hundred and one dollars.

Assessed value of personal property, including mortgages, one hundred and ten million five hundred and ninety-five thousand nine hundred and forty-one dollars.

Estimated total population, about one hundred and seventy-five thousand.

Voters registered during past fiscal year, three thousand eight hundred and six.

Poll tax collected from April tenth, eighteen hundred and seventy-two, to July twenty-ninth, eighteen hundred and seventy-two, about thirty-five thousand dollars.

I hereby certify that the above statement is true and correct.

LEVI ROSNER,
Assessor of City and County of San Francisco.

SAN FRANCISCO COUNTY.

LEVI ROSNER.....County Assessor.

SAN FRANCISCO, July 28th, 1873.

Hon. ROBERT GARDNER,
Surveyor General:

SIR: Annexed I beg leave to transmit to you my annual report of statistics of the manufacturing and mechanical industries of the City and County of San Francisco for the year eighteen hundred and seventy-three.

The same difficulties mentioned in my previous reports have been experienced in collecting data for this, as manufacturers and mechanics show great reluctance to give the necessary information.

Works.....	1
Men employed.....	18
Aggregate value of manufactures.....	\$12,000
<i>Amalgamating Pan Manufactory.</i>	
Factory.....	1
Men employed.....	7
Pans made.....	40
Horse power of steam engine.....	3
Value of manufactures.....	\$12,000
<i>Artificial Stone Manufactory.</i>	
Factory.....	1
Men employed.....	15
Value of manufactures.....	\$20,000
<i>Axle Grease Manufactories.</i>	
Factories.....	4
Men employed.....	13
Rosin consumed yearly, barrels.....	1,300
Butter consumed yearly, pounds.....	15,000
Tallow consumed yearly, pounds.....	2,000
Aggregate value of manufactures.....	\$79,500

Boot, Shoe, and Slipper Manufactories.

Factories.....	35
Men and women employed.....	2,000
Aggregate value of manufactures.....	\$3,000,000

Box Manufactories.

Factories.....	7
Men employed.....	225
Steam engine, horse power.....	180
Aggregate value of manufactures.....	\$665,000

Brass Foundries.

Foundries.....	7
Men employed.....	109
Value of manufactures.....	\$252,000

Breweries.

Breweries.....	38
Men employed.....	226
Beer made, barrels.....	165,000
Aggregate value of manufactures.....	\$1,200,000

Broom and Broom Handle Manufactories.

Factories.....	7
Men employed.....	65
Brooms made annually, dozen.....	68,500
Aggregate value of manufactures.....	\$147,700

Clothing Manufactories.

Factories.....	12
Men and women employed.....	193
Aggregate value of manufactures.....	\$400,000

Cigar Manufactories.

Factories.....	79
Cigars made annually.....	55,400,000
Cigarettes made annually.....	150,000
Aggregate value of cigars, per thousand.....	\$40

Chemical Works.

Works.....	2
Men employed.....	30
Nitrate of soda used, tons.....	300
Sulphur consumed, tons.....	460
Sulphur and nitric acid, tons.....	700
Sulphate of copper made, tons.....	250

Carriage Manufactories.

Factories.....	15
Men employed.....	350
Carriages, wagons, and other vehicles made annually.....	1,050
Railroad cars made annually.....	60
Street railroad cars made annually.....	60
Horse power of steam engines.....	105
Aggregate value of manufactures.....	\$600,000

Distilleries.

Works.....	3
Men employed.....	70
Proof gallons of liquor yearly.....	750,000
Average horse power of steam engines.....	150

Dry Docks (floating).

Ways.....	2
Men employed.....	16
Capacity of docks, tons.....	2,600

Dry Dock (stone).

Dock.....	1
Length of excavation in solid rock, feet.....	450
Width at top, feet.....	120
Depth, feet.....	30
Width at entrance, feet.....	90
Capacity at length, feet.....	425
Capacity for drawing, feet.....	22
Capacity of pumps for cleaning, per hour, cubic feet.....	325,368
Tubular boilers, of four-inch tubes.....	4
Dimensions of each boiler, diameter, inches.....	25
Dimensions of each boiler, length, feet.....	16
Fire surface of boilers, square feet.....	3,800
Men employed.....	25

Total cost of works.....	\$675,000

Hon. ROBERT. GARDNER,
Surveyor General:

DEAR SIR: I transmit herewith the statistical report required by law for the year eighteen hundred and seventy-two. With regard to that part which relates to eighteen hundred and seventy-one, I wish to say that, as you are probably aware, Sutter County suffered considerably from the extreme drought of that year. Crops were distressingly short, and business of every kind very dull. It is a very difficult – I may almost say, impossible – task, to obtain a strictly accurate statistical statement of the productions of a county, owing to the fact that most farmers keep no account of what they produce from year to year. The accompanying report is as accurate as could be obtained within the limited time allowed by law for assessing the county. Last Winter several hundreds of horses, cattle, sheep, and hogs perished in the flood in this county. A great deal of grain was “drowned out,” and many fences were swept away. In many parts of the county crops were not planted at the time of making the assessment. Of course, in such cases, I could only approximate the truth. Sutter is steadily increasing in wealth, and we look forward to the day when it will rank with the older and more populous

counties of the State, with confidence. The subject of reclaiming out swamp lands is receiving due attention, and we are confident that within a few years at most reclamation will be accomplished.

The accompanying table has been approved by the Board of Supervisors. Please send certificate of its correctness, if it is satisfactory, and oblige,

Your obedient servant,

A. E. CLARY,
Assessor Sutter County.

SHASTA COUNTY.

D. C. OSBORNE.....County Assessor.

SHASTA, September 27th, 1872.

Hon. ROBERT. GARDNER,
Surveyor General:

SIR: Herewith you will please find my report for the year eighteen hundred and seventy-two.

The changes in the law in relation to assessment, and the hurry incident thereto, prevented a full and complete collection of the statistics required for the report. I believe, however, that the report is very nearly correct.

The chief articles of export from this county are the products of our mines, lumber, and wool. Our mines are not producing as much as they have in the past – not that they are exhausted, but because it now requires capital to successfully operate in them. There was very little quartz crushed during the past year, and there are but two mills now engaged in crushing, neither of which is constantly employed; one of them is crushing silver-bearing quartz, is well and energetically managed, and bids fair to be remunerative. The largest investment ever made in the placer mines of this county, will soon make one of our mining districts more productive than it ever has been. There are other districts which only need capital and energy to make them equally productive.

There is a great deal of fine timber in this county – more than can be exhausted for many years. And although our lumber production has fallen off in the last year, there is no reason that it should not be greater in the future than it ever has been in the past.

We have an establishment manufacturing sash, blinds, doors, etc., which employs twenty men, and manufactures yearly to the value of thirty thousand dollars.

Our wool production is steadily increasing in quantity and improving in quality.

This county has a large area of unoccupied government land which is well adapted to the culture of fruit trees and grapevines. Our soil and climate are peculiarly

adapted to the cultivation of the vine; and the wines manufactured from our grapes are unsurpassed by any made in California.

About twenty miles of railroad have been constructed in our county this year, which taps the center of our county, and connects us with the commerce of the world.

Shasta County has many resources which promise success to the industrious immigrant.

It was not in my power to complete my report in time to have it approved by our Board of Supervisors at their last session, and they will not be in session again until after the time you have fixed upon to have the report transmitted to you; for this reason I hope that you will excuse me for not having their approval, as you requested. I hope that the report will meet with your approval.

Respectfully,

D. C. OSBORNE,
Assessor Shasta County.

SISKIYOU COUNTY.

GEIRGE DURAND.....County Assessor.

YREKA, August 26th, 1873.

Hon. ROBERT GARDNER,
Surveyor General:

SIR: I herewith transmit statistical report for the year eighteen hundred and seventy-two. I was not aware that the report was required at this time, as the blank forms state they must be returned to you on or before October first, eighteen hundred and seventy-three. I was out of town at the time your telegram arrived. It was forwarded to me, and I returned, and have made the report as required by law. The Board of Supervisors not being in session, I am unable to obtain their approval of said report. I have experienced considerable trouble and difficulty in making a full and complete assessment of certain portions of this county for the year eighteen hundred and seventy-three, especially that portion in the vicinity of the seat of Modoc War. The settlers in that neighborhood could not give any definite idea of the number of their cattle, etc. I have no doubt but that a statement largely in excess of the number assessed, can be hereafter obtained from the Department at Washington, when these parties shall present their claim to government for compensation for cattle and other property destroyed. These claims will undoubtedly show a large number of cattle and other stock which escaped assessment. However, I have done the best I could, under

the circumstances. The report herewith inclosed, is as correct as I am able to make, and hoping it will meet your approval, is hereby respectfully submitted.

I subscribe myself, respectfully,

GEORGE DURAND,
Assessor Siskiyou County.

SANTA BARBARA COUNTY.

C. E. ALVORD.....County Assessor.

SANTA BARBARA, July 25th, 1873.

Hon. ROBERT. GARDNER,
Surveyor General:

SIR: I send you my annual report to-day, which I hope you will examine closely, from the fact that it is the only correct report (as taken from each individual), ever made in this county.

Last year, as you are aware, everything was in confusion, and, of necessity, manifest errors existed, which, happily, do not exist this year.

Hoping that you will acknowledge receipt and satisfaction before the first Monday in August,

I remain, yours, etc.,

C. E. ALVORD,
County Assessor, Santa Barbara County.

SAN DIEGO COUNTY.

M. S. JULIAN.....County Assessor.

SAN DIEGO, July 18th, 1872.

Hon. ROBERT. GARDNER,
Surveyor General:

SIR: In compliance with the duties of my office, I hereby inclose the statistical report of our county, hoping it may prove satisfactory. The assessment roll is not as large as it would have been, owing to the continued drought of three years in succession. The agricultural interest of this county is quite limited; a total failure, except in the mountain towns, where they are visited with frequent showers; fruit but little, as the trees are too young to bear any quantity. The future of the county is truly encouraging. Out miens have been greatly developed within the past year, yielding richly from twenty to two hundred dollars per ton. Three quartz mills have been erected within the past year, making a total of seven mills, containing forty stamps; and two are of Wilson's patent, with a capacity of forty more, making a total of eighty stamps. Our railroad prospects are encouraging; work being commenced, will greatly increase the assessment of next year.

Hoping this will be satisfactory, I am,

Yours, truly,

M. S. JULIAN,
County Assessor.

SAN DIEGO COUNTY.

M. S. JULIAN.....County Assessor.

SAN DIEGO, July 10th, 1873.

Hon. ROBERT. GARDNER,
Surveyor General:

DEAR SIR: Inclosed please find statement for your office from our county.

There is no material change of note in our county since our last report, which I gave you in full last year. It still continues dry, and the no-fence law has driven nearly all the stock out of our county. The mining interest is kept up vigorously, and with good results. The Texas and Pacific Railroad have about three miles of the road graded in our county, and will complete ten miles this year. The sheep interest is improving, and we are getting some good grades of sheep. All the crops are a failure this year, except in the mountain districts, which are fair.

I am, sir, yours truly,

M. S. JULIAN,
Assessor San Diego County.
